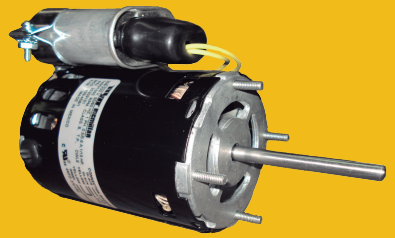
IMESA

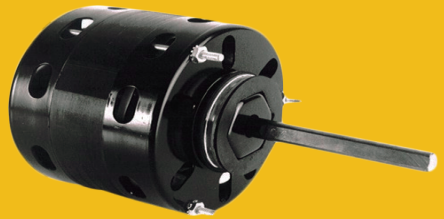
MAKER OF MCMILLAN
FOUNDED 1965

COMPANY PROFILE

Industria de Motores Electricos is a Mexican founded and privately owned family of businesses specializing in the production of electrical motors. Recently celebrating our first 50 years of operation, we now manufacture more than 3,500 exclusively-owned designs of the finest quality, fulfilling the highest national and international standards.

We are a key provider to heating, ventilation, air conditioning and refrigeration industries and also supply products for restaurant equipment, food preparation, medical equipment and other general industrial needs. Recent developments allow us to participate in new technologies, applications, and markets such as ECM, PMDC, and BLDC motors and applications.





COMPANY HISTORY

In 1965, Motores McMillan (Now Industria de Motores Eléctricos) began production of shaded pole, 3 1/3” diameter, 2 and 4 pole motors.

1965
Motores McMillan was Found
