

Hi Guys,

I just sent you all a SUPER long email form letter for the 9th circuit judges. It is targeted at the legal standards that govern prosecutors use of lies to obtain wrongful conviction. The controlling case in that is called NAPUE. It basically says that if it becomes know that a prosecutor knowingly used perjured testimony even on a minor point to get a conviction, that that is as the supreme courts says "a veritable hair-trigger for reversal."

Rudy has the Napue case. It was cited in the Schulke report on page 504, as it was applied to my very prosecutors at around the time they were railroading me.

Anyway, the super long email I sent you speaks to all the key points of NAPUE in the hopes of pulling that hair trigger. You all can sign that email and send it to the 9th Cir as is. Or you can read it for inspiration for your own letter. But pass it all over the world for everyone to see and send along.

If Rudy puts his best videos with it, it will prove beyond all doubt that the prosecutors lied lied lied to convict me. Thousands upon thousands of people voicing their disapproval;

of that WILL matter to the courts. Even if they say it doesn't, or that they can't consider anything outside the record. Because you better believe they read all their emails. And you may want to send them a link to the press release article that has all the links in it. That will get their attention too, because it's so well buttressed with sources and citations.

Dear 9th Circuit Judges,

I am writing to you about the Schaeffer Cox case (Case No.13-30000) that is on appeal in front of you right now from the Federal District Court in Alaska.

This whole case is a scary and corrupt mess. I don't know how it even made it this far, or how these prosecutors aren't in jail themselves after all the lies they told to the judge and jury to convict Schaeffer Cox for imaginary crimes he obviously didn't commit. The truth has come out, and I'm appalled.

Schaeffer Cox has no prior criminal history and comes from a good family. His father is a Westpointer. Schaeffer Cox has never used drugs or alcohol or been mixed up in any such foolishness. He's a well educated businessman. He is not a criminal, or a "bad guy," or anything like that. All he was doing was speaking his opinion and saying how we need to reduce corruption and put more value on the constitution and people's rights.

Because of this, Cox was targeted by some corrupt FBI agents and politically motivated Assistant US Attorneys for "talking smack about the government." I know this for a fact because I have heard the recording of FBI Agent Westerhouse saying so with his own mouth. Hear's a [LINK TO THE VIDEO](#). (Westerhaus "Talking Smack" Video)

It's the right and duty of the American People to "talk smack about our government" officials when they do corrupt things. Who is this Westerhouse guy's boss? And why is he not properly supervising him? Or is Westerhaus just the low man on the totem pole who slipped up and told the truth about what his corrupt boss was doing to Schaeffer Cox?

They "investigated" Schaeffer Cox for no good reason, just like the Gestapo and Stazi used to do. Then, when the FBI agent found out Cox wasn't doing anything bad, they paid street thugs to try to bully Cox into plotting a crime. When Cox told the thugs that that was a bad idea, one of the thugs, Bill Fulton, attacked Schaeffer Cox's friend Les Zerbe with a hunting knife and held it to his throat while saying he was going to "slit his throat open" unless Cox and Zerbe agreed to commit a crime.

And the only reason that Bill Fulton attacked Zerbe instead of Cox was because Cox was holding his two-year-old baby son in his arms. Here's a [LINK TO THE VIDEO](#). (Fulton video, "This was last summer when we didn't know which way it was going to go with Schaeffer and if they were going to take his kid. I was seriously going to kill Les. I was going to bleed him out at my feet. I had a knife and I was coming over the counter. What do you mean you have no plan?")

WHY AM I EVEN HAVING TO WRITE A LETTER LIKE THIS? Are these FBI agents and their street-thug-business-partners just completely out of control? Who supervises them? You would think that if someone talked about the FBI "holding a knife to someone's throat" and telling them to commit a crime, that would only be a figure of speech. But this actually happened! Why?!? Who gave the green light to do this? I want to know.

Because this craziness shouldn't be going on in a developed country with a functioning government.

And this was not some fluke incident that only happened once. After Schaeffer Cox told the thugs "no" and reported them to the local police and Assistant US Attorney - WHO DID NOTHING - he still lived in fear of the thugs. Cox somehow managed to not run into Bill Fulton again. So the FBI just had their thugs send more of Bill Fulton's death-threat-ultimatums to Cox through third parties. Again, I've heard this with my own ears. Here's the [LINK TO THE VIDEO](#). (Fulton Video, "Schaeffer needs to make a plan. So when you guys get back to Fairbanks I want you to re-remember him about what happened last time when I almost killed Les.")

Schaeffer Cox isn't a criminal. He has zero criminal history and no predisposition to commit crimes of any sort, much less a violent crime. So when he got this do-or-die death threat, he packed up his wife and two little kids and tried to leave the country to get away from the danger. That's all he knew to do. Cox was in fear of his life. Cox had already seen Bill Fulton commit an armed violent assault previously when Fulton got mad at Cox for refusing to plot a crime. So Cox knew it was serious when Fulton said he'd kill Cox if Cox said no to another one of Fulton's proposed crimes!

Schaeffer Cox said he was committed to "being like Gandhi, not Rambo," and he just wanted to get himself and his family away from the danger for good. I know this is true because I've heard it for myself. Here's a [LINK TO THE VIDEO](#). (Schaeffer Video, "I'm going to be a Gandhi not a Rambo. That's why I'm leaving. Because that's what has the brightest future for me and my family. Because costing the enemy is not my objective. I don't have hatred from them in my heart. I would forgive them and have all sorts of redemption towards them.")

The FBI case agent on this case knew that Cox had rejected anything violent or criminal. He knew Cox was scared for his life and leaving the country for his and his family's safety. The lead prosecuting attorneys, Skrocki and Bottini, both knew it too. I know this because I've seen their emails back and forth saying so. Here's a [LINK TO THE EMAILS](#). (June 2010 email "SC was exposed as a self- aggrandizing fraud. He had no plan." also "SC does not want CHS 2 to know he's in town. Wants CHS1 To broker deal. Willing to discuss trucker to arrange transport." Also "Any idea of SC's intentions with the list? Especially in light of the fact that he's leaving?" {This can all be found in the 24 page ADDENDUM TO THE PRESENTENCE REPORT 3:11-cr-22-RJB Dkt 535-1 SEALED})

But rather than let the honest, non-criminal, innocent Schaeffer Cox just say no and walk away, FBI Agent Rick Southerland sent in one of the FBI's local business partners, JR Olson, who is a well known con-man and self-described "drug wholesaler" with a criminal record a mile long.

This infamous local drug lord, JR Olson, actually chased the Cox family down as they were driving to leave the country and disabled their vehicle in the middle of the Alaska wilderness, many miles from help, in the dead of a dangerously cold sub-zero winter, where you will freeze to death if your car dies. Cox had his wife, two week old daughter, and 3 year old son with him at this point.

JR Olson reminded the Cox family that their lives were in danger from Bill Fulton, who was now looking for them, since Cox had again refused sign up for violence. JR Olson then made up a story about how if the Cox family went with him and hid out in the attic of a friend's house they would be safe until he could arrange a "trucker" to haul them out to safety. This "trucker" story was all just a lie to convince the Cox family that help was on the way. The Cox family didn't even know this JR Olson guy. But with their car disabled by him, and in fear for their lives from Bill Fulton, the Cox family had no other choice but to go with Olson and wait on the "trucker" to arrive and

give them a ride to safety. Here's the [LINK TO THE VIDEO](#).
(Video of "trucker" lies from Olson)

This is a case of the FBI telling a well know local drug lord -- who's a guilty criminal -- to go kidnap an innocent family for corrupt political reasons. What the heck is going on with Alaska? The violent armed assault with the hunting knife wasn't enough? They have to also go kidnap a 2 week old bay girl, a 3 year old boy, and their mother and father? Who are running for fear of their lives! This actually violates some major international human rights treaties that forbid just this sort of thing. Never mind that it's also illegal under domestic law.

This local drug lord held the whole Cox family hostage against their will for 21 days in that attic with no crime having been committed, but not wanting to let them go either. Then they finally told Schaeffer Cox that the "trucker" had arrived. But it wasn't a trucker waiting for him, it was a SWAT team ambush. This just screams corruption and foul play!! I'm both angry and terrified by the fact that this was allowed to happen in America.

So lets see if we can sum-up everything to this point in one run-on sentence: Schaeffer Cox and his friends and family have never done anything criminal in their whole lives, so when the FBI sent in paid street thugs to literally hold a knife to their

throats to to try to convince them to become criminals, it's no surprise that Cox says "no" and tries to run for his life with his young family in tow, only to be actually forcibly kidnapped under threat of death, by a well known local drug lord who works in partnership with the corrupt FBI and US Attorney's office in Alaska, namely Steven Skrocki and Joseph Bottini, who have a very high profile and controversial history of corruptly going after their political critics.

Then, after what these cooks called "the take down," they charge Schaeffer Cox with conspiracy to murder federal officials. But they didn't -- AND STILL CAN'T -- offer anything specific such as who, or when or how or why. The so-called conspiracy is just some generalized North Korean type political sin of disloyalty to El Jefe. As FBI Agent Westerhouse said, it's all because Cox had been "talking smack about the government."

And it gets even worse. The prosecutor, Bottini ended up under investigation for lying and hiding evidence in several related political cases. So Bottini made Skrocki the number one on the case and then sat in the gallery whispering instructions to Skrocki over the bar on how to railroad Schaeffer Cox, the man they both knew was innocent.

Bottini, through his willing puppet Skrocki, lied to the judge and to the jury, and coached their local drug lord business partner, JR Olson, to lie under oath to the jury. They falsely swore that Bill Fulton never made threats, that Schaeffer Cox was NOT leaving the country for his safety, and that Cox had agreed to some sort of violent plan against the government. All three of those statements are the exact opposite of the truth, and Skrocki, Bottini, Fulton, and Olson all knew it. And I've seen the video that prove this. Here's the LINK. (Proof that Skrocki lied to the judge and had Olson to lie to the jury.)

And by the way, I've heard all of the fantastical spook stories about how Schaeffer Cox was some sort of closet monster plotting murder and mayhem and going to hang a bunch of feds or something. I DON'T BELIEVE ANY OF IT! The evidence just doesn't support it. And Skrocki has zero credibility given all his lies.

After deceiving the court, the jury, and the public, Skrocki and Bottini had Schaeffer Cox thrown in some Gulag type of secret 38 man prison called the "Communications Management Unit" that obstructs his access to his attorneys, and has severely punished him for responding to inquiries from a movie producer who wants to make a film about the Schaeffer Cox case.

Again, this just SCREAMS corruption and foul play!! Who is in charge of oversight? Were the people who did this crazy stuff directed to do it? Or did they do it on their own without approval by DoJ? These are fair questions that I have a right to know the answers to as an American and a stake-holder in this country. Who is responsible for this train wreck?!

Now this case is finally before your court. And I am here to tell you that the truth has recently come out for all the people to see. The proof speaks for itself. As far as I'm concerned, it's not Schaeffer Cox who is on trial anymore; it's SKROCKI, BOTTINI, OLSON, and FULTON. And really, the whole judicial system now that it's gone on this long without something being done to correct this mess.

Nobody forced Skrocki to get up there and lie to the judge and jury. That was his choice. He didn't realize it at the time, but he was testifying against himself. He was offering us absolute proof that he had no respect for the court, or the process, or the rules, or the facts, or professional ethics. He knew he was lying. His emails prove it. But he just did it anyway! He knew his witnesses were lying. The recordings prove it. But he coached them to do it anyway! This whole dirty case is built on what Skrocki KNEW WAS PERJURY!

Yes, I'm outraged. But that's only because the stuff that was done in this case is OUTRAGEOUS! It's bad enough that they had their local thugs commits violent assaults, and had their local drug lord kidnap a whole family; all to get back at an innocent man who spoke ill of their corruption. But then for Skrocki to come into a court of law and lie about it so they could burry a man they KNEW was innocent in a secret prison -- THAT'S EVEN WORSE! They robbed Schaeffer Cox of his freedom. They robbed his kids of their father. But they robbed me of my faith in the justice system.

Just throw this whole case out right now.
