

# Our **Email Security** Solution comes with *all this*

All-in-one anti-spam,  
anti-virus, anti-malware

Encryption, archiving,  
content filtering

99.9% filtering accuracy

Highly advanced firewall

4,000 security tests

Six-month 100%  
money back guarantee

These are challenging times for business. Cybercriminals are taking advantage of budget cuts and staff reductions to poke serious holes in IT security.

Email has become their delivery method of choice for launching viruses, worms, Trojans, phishing schemes, DoS and DHA attacks and other malware into under-protected networks.

*And a very  
cool extra*

Make sure your network has the best protection possible, with next-generation email security from SpammerTrap.

The all-in-one solution that kicks cybercrime to the curb. Provides enterprise-class protection at SMB prices. Guarantees complete satisfaction or your money back.

And turns mere mortals into IT heroes. Let us show you how with a free 30-day demo.

*Favorite secret weapon of IT heroes everywhere.*
