

You wouldn't wait years to change your **oil filter**

Your spam filter isn't much different.

How long has it been since you checked your spam solution?

Technology advances faster than you can change a tire—and the spam problem just keeps accelerating.

In fact, recent reports show that up to 96% of all email today is spam.

Spam is fast becoming the vehicle of choice for cybercriminals to launch viruses, worms, Trojans, phishing schemes and other malware into under-protected networks.

Make sure your network has the best protection—with next generation email security from SpammerTrap.

- 99.9% accuracy in filtering out spam and all other mail-borne malware and delivering legitimate email fast
- Easy 20-minute installation and virtually zero maintenance
- Exceptionally economical
- Sign a 3-year service agreement, and the hardware is on us!
- Cloud solutions also available

Isn't it time to replace your current solution with one that's not only more advanced, but more affordable too?
