Read more about each feature

Top Three Browsers

Use Microsoft Internet Explorer, Google Chrome, and Mozilla Firefox to quickly access your existing applications in the cloud. Plus and Premium plans include web content filtering so you can securely browse the Internet and visit websites as well.

MS Office 2016

Microsoft Word, Excel, PowerPoint, Outlook, Publisher and OneNote.

PDF Reader / Writer

PDF Reader and Writer software by Nuance. (Reader only for Basic Plan.)

Antivirus Protection

Commercial-grade AV protection for your data and users includes critical operating system updates to keep your security strong.

MS Hosted Exchange Email

Microsoft Outlook with Hosted Exchange email, calendar and contacts.

Skype for Business

Popular collaboration tool includes IM.

Citrix ShareFile

Securely store and share data, documents, photos and more with this robust tool.

Intrusion Prevention

Commercial-grade intrusion detection and prevention system (IDPS) prevents computer attacks, hacking and data loss in the cloud.

File Transfer Protocol

Moving data is done securely using FTP, per information security industry recommendations.

vFax Virtual Faxing

vFax ensures secure, compliant faxing of documents and information including intellectual property and sensitive client data.

Business Applications (Premium Plan Only)

Microsoft Visio Pro and Project Professional software for diagrams, org charts and projects.

QuickBooks Pro

Popular accounting software tracks expenses, generates invoices, manages accounts payable and shows the financial health of your organization.

Access to Your Favorite Apps

FastTrack provides secure access to Business, Financial and Legal software you may use currently or wish to purchase, including Amicus, AbacusLaw, Bloomberg, DocuWare, Intacct, MyCase, NetSuite, PCLaw, plus various time-keeping apps and Salesforce-based software apps. Per-user licenses not included.

Hosted Website

Website hosting service includes basic design and setup for your key pages and leverages GoDaddy, an industry-leading host.

AppDNA Service

Robust Citrix tool evaluates company applications to confirm they're ready to move to the cloud.

Nuance Dragon Dictation (Premium Plan Only)

Nuance Dragon best-selling speech recognition software ensures fast, accurate dictation and transcription and seamless integration across devices.

3CX VoIP Phone System (Premium Plan Only)

Take your extension with you wherever you go, with 3CX phone system software and cellphone/computer apps for your business. Phone desk sets sold separately.

Secure Portal Access (All Plans)

Sign in to your compliant cloud portal with speed and complete security from any device, anywhere, anytime.

Company Drive / File Server (All Plans)

Your cloud system runs on a commercial-grade file server that we monitor, maintain and upgrade to ensure peak performance.

24/7 Technical Support (All Plans)

FastTrack includes 24/7 technical support for you and your staff. (8/5 for Basic Plan only.)

Ongoing Cloud Management (All Plans)

We monitor the JDL cloud portal, our hosting facilities and your system performance around the clock from our award-winning Managed Services Operations Center. All data is backed up in our offsite datacenter and readily available should you need it.
