Why we do what we do

Tacwise

Tacwise is the dominant brand associated with hand and electric stapling / nailing tackers within the UK market. We have the widest range of quality industrial fastenings and pneumatic tackers in Europe and over 50 years of knowledge and experience.

Utilising all of our expertise we continue to create class leading tools and fasteners for the whole of Europe and beyond. Using state-of-the-art zinc and aluminium extrusion technology, learnt from the aviation industry and high performance plastics demanded by the automotive industry, Tacwise products offer the very best in performance, durability and innovation.

Pro Staple Remover

Professional	Code: 0206

Pack Style — Retail Clam

Trade = 12 Units
Transit = 48 Units

Grips and retains staples whilst removing them. Ideal for lifting out many types of staples. From panelling, insulation & lining, upholstery, carpet underlay and many more… The ergonomic grip provides comfort during extended periods of use.
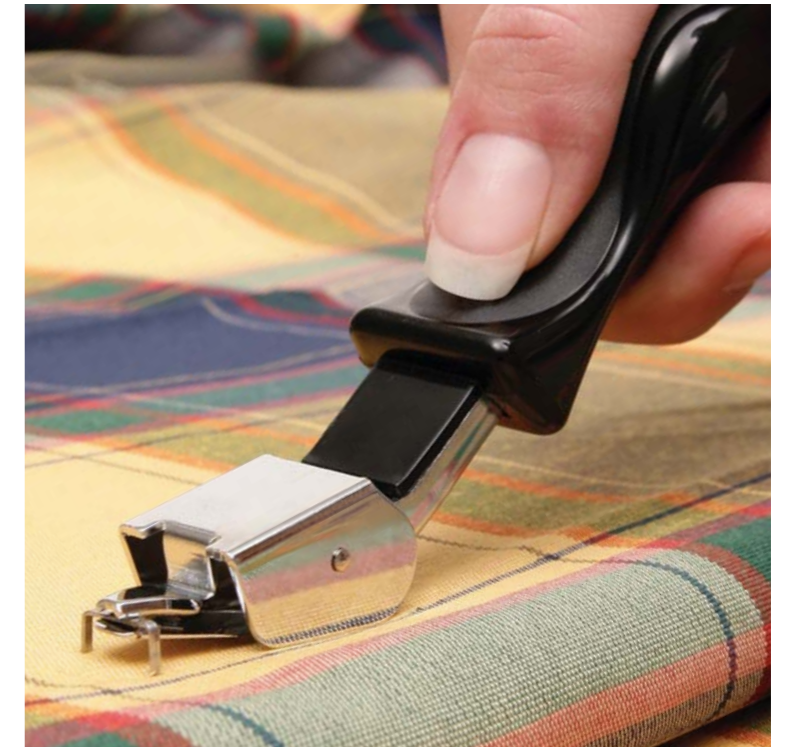

91 Staple Remover

Professional	Code: 1073

Retail Clam

Pack Style — Trade = 12 Units
Transit = 48 Units

Removes 91 type and other narrow crown staples from timber. Incorporating a stepped lifting device this remover will handle staples with both short and long legs. With ergonomic grip.

Stapling up to 40mm & Nailing up to 50mm

Just load, plug in and fire

Utilising our 50 years of knowledge, experience and expertise, our range of corded electric tackers offer the very best in performance across a range of stapling and nailing tasks. There's no need for batteries, gas cells or compressors; simply load, switch on the power and you're ready to go.

Excellence in design and engineering as standard across a comprehensive range of fastening tools ranging from small, compact and lightweight through to heavy duty nailers and staplers.

1. Compact

Our range of semi-pro and professional models are small, fast and lightweight. An ideal step-up from manual hand tackers, these compact electric tackers are highly balanced with an ergonomic design that makes repetitive stapling tasks easy and comfortable.

Perfect for applications including upholstery, insulation, picture framing, wire fencing carpeting and more.

2. Medium Duty

With tremendous versatility, Tacwise Medium Duty electric tackers offer extraordinary value for money and are a must for every tool bag. Coupling superb performance with user comfort, our Medium Duty electric tackers are extremely fast semi-professional tools capable of firing nails up to 35mm.

Hugely capable and loaded with features, these tackers are ideal for applications including cabinet assembly, door frames, carpeting, soft wood flooring and many more second fix tasks.

3. Heavy Duty

The new generation of Tacwise electrics feature redesigned electronics and enhanced engineering, making them the tool of choice for the discerning tradesman.

These tools eat up second fix and reconstruction tasks with speed and precision. With unrivalled performance in their class, our Heavy Duty electric tackers boast a range of dynamic and innovative new features.

Essential for tradesmen, these tools will make light work of a range of second fix and making good tasks including flooring, sub flooring, underlay gripper, insulation and more.

Europe's Widest Quality Stapling / Nailing Range
TACWISE

Corded Electric Tackers

Supplied with either UK, Euro or other International plug/cable variations.

Stapling up to 14mm & Nailing up to 15mm

Compact Electrics

Always ready at hand these tackers are designed with the minimum of parts to enhance reliability and reduce weight which, combined with a robust chassis and body materials, result in the tools delivering maximum durability.

DIY / Semi-Pro... 53EL & 140EL

These ultra-compact corded tackers boast a host of dynamic and innovative features and are ideal for professional and lightweight applications. Featuring an all polymer body, the compact 53EL uses the popular 53 type (DIY, fine wire) staple, ideal for professionals seeking discreet fastening.

Great for retail

Compressed into a neat clam which will hang on Euro hooks/pegs or stand alone on a display shelf.

191EL Ultimate Versatility

191EL Pro is a 'must have' for all professional tradesmen tackling any number of second fix and making good tasks as well as precision jobs in the workshop. Hugely popular for flooring including boarding out and soft wood floorboards.

Popular for securing glued items to avoid movement.

Light, compact size for jobs that are difficult to access.
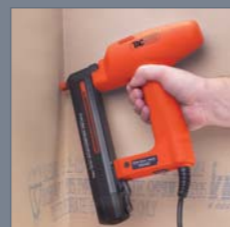

Great for getting into tight corners. Excellent for dry wall lining with 91DP (divergent point) staples.

191EL is the tool everyone should have in their toolbag regardless of which other staple or nail guns they own. The best value, most versatile corded stapler/nailer on the market.

191EL

Firing six different lengths of nails and four different lengths of staple, the 191EL Pro is a nailer & stapler that's perfect for a wide range of fixing applications.

Versatile, ergonomic and lightweight; the 191EL Pro is perfect for continuous nailing tasks, especially those in difficult to reach areas. Simple, easy to use and the fastest tool of its kind, it's no wonder the 191EL Pro is the UK's favourite nailer/stapler.

Stapling up to 45mm & Nailing up to 50mm

18G/50 Nailer

This dedicated nailing tool has a precision air tool construction and will accurately drive 18 gauge brads with little marking to the surface of the timber. Ideal to speed through a wide variety of tasks this will save the busy tradesman a lot of time and free one hand to guide and position the work peice. Also ideal for a temporary fix during glue drying.

All new magazine

The 18G/50 Nailer and 16G/45 Finish Nailer both embrace an all new magazine with a high level of precision and the 18G tool featured has two viewing windows. As with all new generation Tacwise electrics there is a quick release nail gate and easy close side load system.

Watch the 16G/45 video

16G/45 Finish Nailer

Firing the popular 16 gauge finish nail (a heavier nail than the 18 gauge version) this tool is perfect for a wide selection of applications and in particular those requiring a heavier more secure second fix nail.

Master Nailer™ 16G/45 Electric Finish Nailer   160(16G)/20-45mm

Professional	Code: 1187	Includes: This pack does not contain nails

No gas or compressor required

Fast and convenient these second fix, dedicated nailers are quick to load and do not require gas packs or compressors... simply load, plug in, turn on and fire. Perfect in the work shop or for the busy tradesman on the move.

Stapling up to 45mm & Nailing up to 50mm
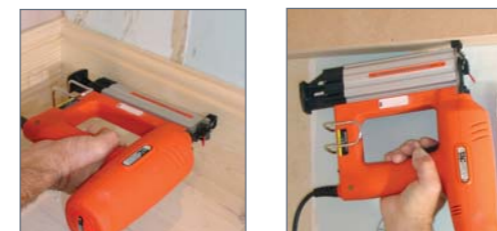

Inclined Professional Nailers

Sitting at the top of the Tacwise tool line, the 400ELS offers ultimate convenience with its inclined magazine system.

400ELS Pro

The Master Nailer™ 400ELS is fast and light and its handy angled design makes it ideal for tackling fixing tasks where elbow room or access is limited – such as under stairs, behind baths or sanitaryware etc. Delivering the closest thing to air-tool performance in an electric nailer, the 400ELS fires six lengths of nail up to 40mm, and at speeds of up to 30 nails per minute – more than enough for practically all purposes.

An unrivalled performance

400ELS (the all new nailer replacing 400EL) is a little different from the other Tacwise electrics. The key feature is its angled magazine which makes the tool extremely compact and capable of firing into very tight spaces. It is also the only model to include a rubber grip and surface pad on the top of the tool and a removeable wire stand, which can be clipped on and off in an instant, positions the tool upright 'ready to go' when used in tasks such as securing floor boards and boarding out.

400ELS incorporates a rifle butt style quick release catch for rapid reloading and a unique easy access nail gate makes freeing fastenings simple in the unlikely event of a misfire.

Replacing the driver return bungees

Each Ranger 2 tool comes supplied with spare driver return bungees which wear out eventually. The video below (as well as the tool manual) explain the simple procedure to replace these consumable parts. Also available to order code: 1292 (pack 4).

Watch the video

Battery 18v (Li-ion) Specifications

Code	Capacity/shots per charge	Weight (kg)
NEW 1253	2.0Ah/800 shots (approx.)	0.4kg

The latest Li-ion technology. Light in weight at just 0.44kg. Delivering long nailing periods between charges. The Ranger 2's are supplied with 2 x 2Ah 18v batteries – no need for lengthy downtime.

Charger Specifications

Code	Mains voltage /input VAC	Approx. charging time (mins)	Weight (kg)	Fitted plug
NEW 1254	100-240v	60	0.43kg	UK/Euro

Chargers are easy to use, space-efficient and will get your Ranger 2's 2Ah 18v battery charged back up in just one hour – greatly reducing down time. The charger comes with an interchangeable plug between UK and Euro, fitted ready for UK use.
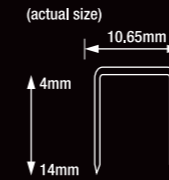

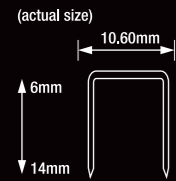

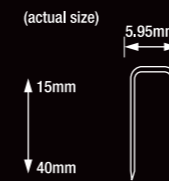

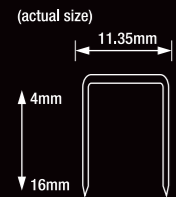

Staples

Produced from high grade raw materials, our staples are available in a range of finishes and sizes with full coverage of those most commonly used in upholstery, installation and second fix trades. Whatever the stapling task, you'll find a fastening that exceeds expectations.

Air Nailing & Stapling

We believe that design and manufacturing innovation is the key to success and we continue to refine our designs to bring you the very best tools within their class. Our aim is to develop new standards of performance utilising the most advanced aluminium, magnesium and titanium materials, to define products that do more than simply function – but that perform better and last longer.

Coming Soon. A variety of kits including our new 1.5 HP Compressor

NEW

Built for the professional

Tacwise is committed to creating the ultimate fastening product range from hand, corded, cordless, and air powered equipment, combined together to provide the widest quality tools and consumables programme in Europe.

Loaded with features

Each with their own powerful features Tacwise air tools are carefully designed for user safety, convenience and durability.

Many tools include a flip open quick release nail gate for clearance of a fastener in the unlikely event of a jam.

They're packed with features including reload indicators and rubber noses to avoid damaging softer timbers.

Handy and easy to use controls for depth adjustment make precision tasks simple.
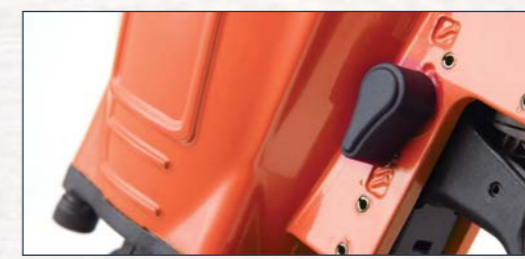

This small lever allows the user to quickly switch between single shot and contact trip (bump fire).

Quick release magazines of different styles mean ultra fast re-loading.

Europe's Widest Quality Stapling / Nailing Range

TACWISE

Stapling up to 16mm

General Purpose & Upholstery Tackers

Unrivalled quality and performance from our top selling upholstery and general purpose air staplers. From the fastest to the lightest, we have a programme that covers all applications.

Market Leader

Widely used within the upholstery and general stapling channels, Tacwise has continued to refine its programme after many years of industry experience.

Extra Long Nose 71 Staple Tacker 71/4-16mm

| Production Line | Code: A7116LN | BEST VALUE |

60-100 | 1.1kgs | 71 Staples 4-16mm | Pack Style | Carry Case | Trade = 1 Unit Transit = 6 Units

Magnesium bodied stapler with an extended 50mm nose to allow for stapling into awkward areas. Lightweight and compact with rear exhaust, this tool is a firm favourite in the re-upholstery trade.

Extra Long Nose 80 Staple Tacker 80/4-16mm

| Production Line | Code: A8016LN | BEST VALUE |

60-100 | 1.1kgs | 80 Staples 4-16mm | Pack Style | Carry Case | Trade = 1 Unit Transit = 6 Units

71 Automatic Staple Tacker 71/5-16mm NEW

| Production Line | Code: A7116AUTO | BEST VALUE |

60-100 | 0.9kgs | 71 Staples 5-16mm | Pack Style | Commercial Box | Trade = 1 Unit Transit = 10 Units

Easy to switch between single and continuous fire with a variable speed control. Quick reloading makes for rapid stapling on large jobs with minimum downtime. This tool is powerful yet lightweight and will happily run from a small compressor.

Stapling up to 16mm

71 Upholstery Staple Tacker 71/4-16mm

| Production Line | Code: A7116V | BEST VALUE |

60-100 PSI · 0.9kgs · 71 Staples 4-16mm · Pack Style Carry Case · Trade = 1 Unit Transit = 10 Units

Fast, reliable and the first choice for many professional upholsterers. Incorporating every essential feature insisted upon by the most demanding of users. Quiet, reliable and extremely quick to load.

Premium 71 Staple Tacker 71/4-16mm

| Production Line | Code: A7116P |

60-100 PSI · 0.8kgs · 71 Staples 4-16mm · Pack Style Commercial Box · Trade = 1 Unit Transit = 10 Units

This model is fast and well balanced. Designed for the production line environment. Incorporating every essential feature insisted upon by the most demanding of users. Quiet, reliable and extremely quick to reload.

80 Upholstery Staple Tacker 80/4-16mm

| Production Line | Code: A8016V | BEST VALUE |

60-100 PSI · 0.9kgs · 80 Staples 4-16mm · Pack Style Carry Case · Trade = 1 Unit Transit = 10 Units

Fast, reliable and the ultimate first choice for many professional upholsterers. Ideal for production line use. The wide 80 series staple provides additional fastening strength for materials such as plastic sheeting. Especially popular with our European users.

53 Staple Tacker 53/6-14mm

| Production Line | Code: A5314V | BEST VALUE |

NEW

60-100 PSI · 0.9kgs · 53 Staples 6-14mm · Pack Style Commercial box · Trade = 1 Unit Transit = 10 Units

This air powered staple gun fires the popular 53-Type staple and will happily run off a small compressor. Now you can use your 53 staples (Galvanised or Stainless Steel) accross a full range of Tacwise stapling tools including; hand, hammer, electric and air.
See page 49 for 53 type staples.

140 Staple Tacker 140/4-14mm

| Professional | Code: A14014V | BEST VALUE |

60-100 PSI · 0.9kgs · 140 Staples 4-14mm

Pack Style Carry Case · Trade = 1 Unit Transit = 6 Units

This professional tool handles the 140 (T-50 Type) staple, commonly used in hand and electric tackers. Ideal for hand tool users tackling volume stapling tasks with standard and stainless steel staples.
140 staples listed on page 49

Stapling up to 50mm

50mm Heavy Duty Stapler

Production Line   Code: F1450M

| 70-120 PSI | 2.4kgs | 14 Staples 19-50mm | Pack Style — Commercial Box | Trade = 1 Unit Transit = 2 Units |

Lightweight, compact and powerful this 50mm tool delivers an impressive performance. Beautifully balanced and highly reliable. Well established in many "blue chip" furniture factories. Can be supplied without the quick release nose gate (as per image).

Heavy Duty Wide Crown Stapler

**Production Line**   Code: G1738V   **BEST VALUE**   NEW

| 70-120 PSI | 2.4kgs | 17 Staples 16-38mm | Pack Style — Carry Case |

Primarily used for attaching packaging materials to wooden pallets, this quality wide crown stapler is a work horse that's loaded with features. Tough and reliable, it boast a magazine stabilising bar, a depth adjuster and a flip-open nail gate for quick clearance of staples in the unlikely event of a jam.
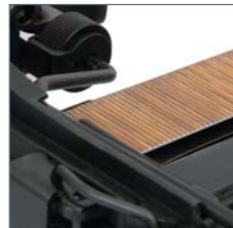

Quick release nose gate   Easy top loading   Single shot - contact trip   Depth control adjustment

Corrugated Fastener

Premium 15mm Corrugated Fastener

Production Line   Code: FCF15XCB

| 65-115 PSI | 2.6kgs | Corrugated Fasteners 9-15mm | Pack Style — Commercial Box | Trade = 1 Unit Transit = 5 Units |

Powerful fastening tool, capable of countersinking 15mm fasteners. Easy bottom loading of any size with minor adjustment. Ideal for butt joints in cabinet and furniture frames and for door and window sash manufacturers.

Nailing/Pinning up to 64mm
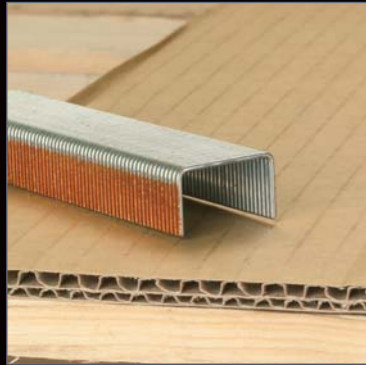

Our precision wide crown staples are ideal for attaching packaging material to wood, as well as a wide variety of furniture framing applications.

The depth control adjustment avoids the need to manually gauge the staple depth by adding downward force when firing the tool.

Nailers & Pinners

64mm Angled Finish Nailer

Production Line | Code: GDA64V | **BEST VALUE**

PSI 70-120 | 1.8kgs | 15G 'D' Head Inclined Finish Nails 32-64mm | Pack Style Carry Case | Trade = 1 Unit Transit = 5 Units

Popular on-site as well as for workshop/joinery applications. Supplied with a non marking nose safety and fast reload system, this tool is light and compact. Capable of counter sinking a 64mm nail.

Nailing/pinning up to 64mm

35mm Headless Pinner

Production Line | Code: A6435

60-100 PSI | 0.9kgs | 23G 'A64' 12-35mm | Pack Style | Commercial box | Trade = 1 Unit / Transit = 10 Units

This quality, lightweight tool is perfect for fixing fine beading. Ultra slim nose for accurate pin placement. No adjustment is required to fire pins of different lengths. Rear exhaust, double trigger safety system and high durability driver.

32mm Brad Nailer 180/10-32mm 18G/10-32mm

Production Line | Code: C1832V | **BEST VALUE**

60-100 PSI | 1.1kgs | 180 (18G) Nails 10-32mm | Pack Style | Carry Case | Trade = 1 Unit / Transit = 6 Units

This hugely popular lightweight tool is accurate and reliable and offers tremendous value. Compact and versatile it can be bump fired with its contact trip valve. Fires up to 5 shots per second.

35mm Mini Brad Nailer

Professional | Code: CMB35PHH

60-100 PSI | 1.3kgs | 21G 'Mini Tip' Mini Brads 15-35mm | Pack Style | Carry Case | Trade = 1 Unit / Transit = 5 Units

High durability nail driver system. Out-performs metal bodied versions which cost a great deal more. Firing up to 35mm mini brad nails, it has virtually no vibration/recoil. Nail reload indicator. Small nose for accurate fixing.

50mm Brad Nailer 180/20-50mm 18G/20-50mm

Semi Professional | Code: DGN50V | **BEST VALUE**

60-100 PSI | 1.2kgs | 180 (18G) Nails 20-50mm | Pack Style | Carry Case | Trade = 1 Unit / Transit = 6 Units

All professional fully featured tool including a depth adjuster. Comfortable fast and lightweight. Specified by trade professionals throughout Europe this model is already a Tacwise best seller.

50mm Finish Nailer 160/20-50mm 16G/20-50mm

Production Line | Code: DFN50V | **BEST VALUE**

70-120 PSI | 1.7kgs | 160 (16G) Nails 20-50mm | Pack Style | Carry Case | Trade = 1 Unit / Transit = 5 Units

Offering excellent value and widely accepted in the furniture manufacturing industry, this ergonomic model delivers peak performance. Fast and accurate, this finish nailer comes with a flush, quick release nose gate designed to avoid obstructing tool access in tight spaces. With essential user features it's reliable and demanded for volume nailing tasks.

64mm Finish Nailer 160/20-64mm 16G/20-64mm

Production Line | Code: GFN64V | **BEST VALUE**

70-120 PSI | 1.8kgs | 160 (16G) Nails 20-64mm | Pack Style | Carry Case | Trade = 1 Unit / Transit = 6 Units

Versatility at its best. Uses 20-64mm nails without requiring any magazine adjustment. Features a nailing depth control and a special font opening jam clearance system to keep "down time" to a minimum.

Tacwise air tackers – quieter by design

With noise pollution in the workplace at the
forefront of our minds, Tacwise tools are carefully
created to perform at lower, more acceptable
decibel sound/noise levels (dBA) than others in
their class.

Nailing/pinning up to 64mm

Versatility and diversity

A comprehensive programme of accurate and reliable fine nailing tools and fastenings designed to satisfy the demands of a huge range of woodworking applications.

Nailing up to 130mm

Coil Nailers

FCN57V featured here offers unrivalled performance and the lightweight magnesium alloy body provides exceptional power and complete ease of use. It is especially suited for shed and fence manufacture as its 350 nail high capacity magazine means less reloading is required.

Serious about coil nailing

This category forms a particularly important focus for Tacwise and our full tool line covers most major and niche applications with an extensive and heavily stocked fastening programme to cater for pressures of demand from our dealers and their largest users.

10 high performance coil nailers

Unrivalled

Most Tacwise coil nailers fire 4+ nails per second and can be used single handedly. This is because lightweight magnesium is used to manufacture many of the tool bodies and triple hardened internal parts facilitate rapid firing and excellent durability. Ergonomic design provides great balance and comfort. Neat touches, such as external top cap crash bars help to ensure less down time than other nailers.

Versatility

Popular for traditional nailing applications such as building sheds, fence panels and pallets. Coil nailers are also a brilliant time saving solution for any number of nailing applications where speed and efficiency are desirable. High capacity magazines contain a large volume of nails and offer continuous effective operation.

Increasingly demanded within the construction industry, the ability to fire up to 400 nails without re-loading increases productivity and makes coil nailing the preferred option when compared to strip nailers which only load around 100 nails at a time.

All Tacwise coil nailers up to 90mm are light enough for single handed operation.

57mm Mini Coil Nailer

Production Line | Code: FCN57V | BEST VALUE

PSI 70-120 | 2.3kgs | 2.1-2.5 Flat Coil Nails 25-57mm | Pack Style | Carry Case | Trade = 1 Unit Transit = 5 Units

Highly versatile heavy duty nailer taking 25-57mm round head, wire collated coil nails in a transparent nail drum. Perfect for packaging applications including pallet reconditioning and top-decking pallets in particular. Also very popular for the construction of garden buildings.

Nailing up to 130mm

50mm Mini Coil Nailer

Production Line | Code: DCN50LHH

| 70-120 PSI | 1.5kgs | 2.1 Conical Coil Nails 22-50mm | Pack Style Carry Case | Trade = 1 Unit Transit = 2 Units |

An exceptional tool for 2.1 diameter round head nails. Weighing a mere 1.5kgs it will nevertheless countersink a 45mm ring shank nail. Compact design with a single or bump fire trigger. Very popular in the fencing, shed and flooring industry.

50mm Coil Nailer

Production Line | Code: FCN50LHH

| 60-120 PSI | 2.0kgs | 2.1 Flat & Conical Coil Nails 27-50mm | Pack Style Commercial Box | Trade = 1 Unit Transit = 2 Units |

Weighing only 2kg, this tool offers exceptional speed and will take 27-50mm flat and conical head nails making it ideal for fencing and shed manufacture. Single or bump fire trigger.

Coming Soon. Additional tool under development NEW

57mm Coil Nailer

Production Line | Code: GCN57P | **BEST VALUE**

| 60-120 PSI | 2.7kgs | 2.1-2.3 Flat Coil Nails 25-57mm | Pack Style Carry Case | Trade = 1 Unit Transit = 5 Units |

An extremely heavy duty workhorse, this tough production line tool has a highly developed construction and specification, firing approximately 400 nails without reloading. Contact trip trigger. Suitable for exhibition, pallet, crate and packaging industries.

65mm Coil Nailer

Production Line | Code: FCN65V

| 70-120 PSI | 2.0kgs | 2.1-2.9 Flat & Conical Coil Nails 32-65mm | Pack Style Commercial Box | Trade = 1 Unit Transit = 2 Units |

Ultra lightweight, this professional production line tool has a highly developed construction and specification, firing up to 350 nails without reloading. Extremely versatile as it accepts a wide range of nail diameters.

70mm Coil Nailer

Production Line | Code: GCN70V | **BEST VALUE**

| 70-120 PSI | 3.7kgs | 2.3-2.9 Flat Coil Nails 40-70mm | Pack Style Carry Case | Trade = 1 Unit Transit = 2 Units |

This tough production line tool has a highly developed construction and specification, firing up to 300 nails without reloading. Contact trip trigger. Tool ideal for the pallet and packaging industries.

83mm Coil Nailer

Production Line | Code: HCN83P | **BEST VALUE**

| 70-120 PSI | 3.9kgs | 2.5-3.3 Flat Coil Nails 38-83mm | Pack Style Carry Case | Trade = 1 Unit Transit = 2 Units |

Robust traditional tool for reliable and tough continuous nailing. Especially hardened working parts ensure a long and productive life. Developed for the rugged pallet and case industries in particular.

90mm Coil Nailer

Production Line | Code: JCN90XHH

| 70-120 PSI | 3.6kgs | 2.5-3.1 Flat Coil Nails 45-90mm | Pack Style Commercial Box | Trade = 1 Unit Transit = 2 Units |

A more specialist tool firing up to 90mm. Super-lightweight magnesium alloy body for the ultimate power to weight ratio. Nose safety designed to avoid slippage. Tough construction to withstand the rigours of continuous on-site use.

130mm Coil Nailer

Production Line | Code: LCN130V

Side handle for easy grip of this sturdy tool

| 70-100 PSI | 6.5kgs | 3.1-3.8 Flat Coil Nails 75-130mm | Pack Style Commercial Box | Trade = 1 Unit Transit = 1 Unit |

Supplied with side handle (shown above) for two-handed operation and suspension point. This powerful nailer has a single shot trigger and good power to weight ratio. Mainly designed for large packing case, crate and cable drum manufacture. Also widely used for heavy duty pallets, framing and steel skids.

Nailing up to 130mm

65mm Coil Nailer

Production Line	Code: HCN65P	BEST VALUE

PSI 70-120　　2.5kgs　　2.3-2.9 Flat Coil Nails 32-65mm　　Pack Style　Carry Case　　Transit = 4 Units

Outstanding power to weight ratio. Sinking a 65mm ring nail, this tough production line tool accepts both reduced head and standard (7mm diameter) head nails. Fires up to 350 nails without reloading.

Complete Versatility

The HCN65P featured here is the benchmark tool for a wide number of timber frame house applications and is particularly versatile as this single tool, without the need for any adjustment, drives both the reduced head or standard 7mm head, 50mm nails used for sheathing. Whilst compact, it incorporates outstanding power and speed driving up to 65mm. A premium quality, highly recommended tool.

Nailing up to 130mm

Put to the test

We admit – we're tough on our products. We have to be when they're used in busy industrial environments. They need to be able to withstand the toughest treatment, which is why we painstakingly stress test every new item and why we then hand test every single tool.

Outstanding Quality and Performance

Sophisticated progressive tooling, intelligent electronic engineering and a commitment to precision and detail, create the greatest air tacker programme available worldwide. Our dedication to quality begins in the initial stages of design with every component machined to extra ordinary precision for years of trouble-free use.

High Performance Coil Nails

Increasingly demanded within the construction industry, the ability to fire up to 400 nails without re-loading increases productivity.

Strip Nailers

The ultimate range of angled strip nailers, offering sheer power, outstanding performance and reliability. An essential for all those tough jobs.

90mm Angled Strip Nailer

| Professional | Code: JSN90MHH |

70-120 | 3.9kgs | 2.9-3.3mm diameter 22° Plastic Collated Strip Nails/50-90mm | Pack Style | Carry Case | Trade = 1 Unit Transit = 2 Units

An extremely powerful first fix strip nailer that won't let you down. The lightweight angled magazine provides easy access in all frame construction applications day in, day out. Probably the most reliable tool on the market.

90mm 34° Angled Strip Nailer

| Professional | Code: KDH90V | **BEST VALUE** |

70-120 | 3.8kgs | 2.8-3.7mm diameter 34° Paper Collated 'D' Head Strip Nail/50-90mm | Pack Style | Carry Case | Trade = 1 Unit Transit = 2 Units

Extremely powerful, reliable and with virtually no recoil this 34° 'D' head strip nailer is very popular with timber frame house builders and is perfect for a wide variety of first fix roofing applications.

This robust tool is complimented with a range of great user features including a bumper/belt hanger and floating nose system.

Metal Connector Nailer

| Professional | Code: FRH38THH |

70-120 | 2.1kgs | 3.75mm diameter 34° Paper Collated Nails/25-38mm | Pack Style | Commercial box | Trade = 1 Unit Transit = 2 Units

A compact and lightweight tool designed for quickly locating the nail point into the holes of joist hangers and any number of other metal braces and timber construction metal links.

Nailing up to 90mm

For your heavy duty nailing tasks

These heavy duty strip nailers handle the popular and standard 34º 'D' head paper collated nails up to 90mm. Tough and reliable yet relatively lightweight by way of their magnesium alloy bodies they are perfect for a wide range of timber frame and construction tasks. Plus many applications where these longer nails are required including heavy weight decking and fencing, cable drums and steel skids, pallet and case construction.

Valuable and robust tool features

Additional specification rows (by product): Takes staple/nail type; Fasteners length (mm); Capacity; Max dBA sound/noise; PSI; Trigger.

Performance, Comfort & Safety
- Soft rubber safety grip
- Single shot trigger
- Slender length nose
- Neat rear exhaust system
- Double safety trigger
- High capacity magazine/nail drum
- Extra long nose
- Bottom loading
- High durability driver blade system
- Quick release reloading system
- Depth control countersinking
- Variable speed control
- Non marking foot
- Quick release nose gate
- Open (viewable) magazine system
- 360° adjustable exhaust port
- Double power cylinder system
- Side quick release loading system
- Staple/nail refill window
- Automatic pin length adjuster
- Safety yoke to avoid slippage
- Protective bumper

Applications

Product groups: General Purpose & Upholstery (A711GLN, A711GV, A7116AUTO, A7116P, A808GV, A808GLN, A531AV, A1401AV); Narrow Crown (C9725V, C9032V, D9040V); Heavy Duty, Wide Crown & Corr Fastener (G1450V, F1450M, G1738V, FCF15XCB); Nailers & Pinners (GDA64V, A6435, C1832V, CMB35PH); Coil Nailers (DGN50V, DFN50V, GFN64V, DCN50LHH, FCN50LHH, GCN57P, FCN57V, HCN65P, FCN65V, GCN70V, HCN83P, JCN90XHH); Strip Nailers (LCN130V, KDH90V, JSN90MHH, FRH38THH).

Application rows:
- Attaching wire mesh netting to wood
- Bed frames
- Furniture frames
- Cane/rattan furniture
- Carpet/underlay/gripper/thresholds
- Coffin linings
- Coffin manufacture
- Drawer bottoms/cabinet assembly
- Exhibition/show construction
- Exhibition/show upholstery
- Fencing
- Fixing underlayment
- Furniture/cabinet/woodwork assembly
- Insulation & lining
- Kitchen & bedroom furniture
- Office screens
- Pallet/crate/packing case manufacture
- Panelling
- Pelmets, blinds & awnings
- Pet cages, runs and enclosures
- Plasterboard
- Cabins, mobile homes, caravans
- Presentation boxes
- Roofing felt
- Sheds & garden buildings
- Shoe repair
- Sign manufacture
- Soft and hardwood floorboards
- Staircase construction and banisters
- Sub flooring/boarding out & plywood
- Theatre & film scenery
- Trellis work
- Tubs and barrels
- Upholstery & re-upholstery
- Window display/shop fitting
- Window frames & beading

(Right-hand Applications table repeats the same application rows against the product columns: GDA64V, A6435, C1832V, CMB35PH, DGN50V, DFN50V, GFN64V, DCN50LHH, FCN50LHH, GCN57P, FCN65P, HCN65P, FCN57V, GCN70V, HCN83P, JCN90XHH, LCN130V, KDH90V, JSN90MHH, FRH38THH; and General Purpose/Narrow Crown/Heavy Duty groups.)

Hot & Cool Melt Glue Guns

Offering a strong permanent alternative for many hobby, craft, DIY and industrial fixing jobs.

Speed and durability

The 207 leads the glue gun programme. For the hobby and professional alike, Tacwise glue guns and adhesives are a superb, powerful essential for every tool bag and workshop.

All our versatile, high impact trigger fed glue guns bond almost anything in less than two minutes.

207 Tool Features

Durable 3 minute heat up melting chamber, cooling "air flow" vents, a removable non-drip push on nozzle for accurate gluing, a platform and retractable stand as well as a 4-finger trigger operation for ease and convenience.

150/202 Tool Features

Models 150/202 have handy features including insulated rubber nose protectors, on/off switches (illuminated for 202) and pressure touch feed systems for speed and reliability.

Rubber nose protector
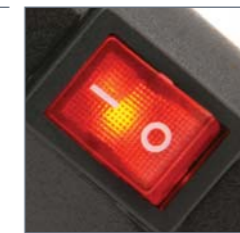

Illuminated on/off switch (model 202)

Pressure touch feed system

150 Cool Melt Glue Gun

DIY/Semi-Pro   Code: 0465   Includes: 2pcs 7.4mm x 100mm clear glue sticks

0.3kgs   Diameter/Length 7.4mm x 100mm   Pack Style / Retail Box   Trade = 12 Units Transit = 36 Units

Safe, compact gun, ideal for hobby use, arts and crafts or general low volume applications. Cool melt offers a safer alternative with the adhesive running at a much lower temperature.

202 Hot Melt Glue Gun

Semi-Professional   Code: 0466   Includes: 1pc 11.75mm x 100mm clear glue stick

0.5kgs   Diameter/Length 11.75mm x 300mm   Pack Style / Retail Box   Trade = 6 Units Transit = 24 Units

Well balanced gun for maximum control and an easier output flow of glue.

New high wattage model (not featured) coming Summer 2016

NEW

207 Hot Melt Glue Gun

Professional   Code: 0003

1.5kgs   Diameter/Length 11.75mm x 300mm   Pack Style / Carry Case   Trade = 4 Units Transit = 8 Units

Robust gun offering high performance during high volume glue output. Rear clutch trigger mechanism enables fast and steady glue flow. 2kg glue output per hour.

7.4mm & 11.75mm Sticks & 43mm Slugs

Hot & Cool Melt Glue Gun Technical Specifications

Code	Tool Description	Dimensions (H x W x D)	Weight (kg)	Glue Diameter/ Length (mm)

0476	Clear Cool Melt Mini Glue Sticks	7.4 x 100mm	12 Sticks	Retail Card	Multi purpose	150

Glue Stick Applications

Hot Melt Glue

Glue Type	Open Time (seconds)	Ideal For:
White/Woodworking	45 - 60	Woodworking and where white packaging/finish is needed
Clear Multi-Purpose	45 - 60	General packaging, product assembly, upholstery and dried flower displays
Tan Glue	20 - 25	Packaging and flooring applications including carpet and grippers
Tan Glue Slugs	20 - 35	Packaging and flooring trade high volume usage in industrial guns
Clear Premium Multi-Purpose	60	A multitude of applications. Popular for 'fabric to fabric'

Cool Melt Glue

Glue Type	Open Time (seconds)	Ideal For:
Clear Multi-Purpose	60	Hobby crafts, schools and floristry

Models 150/202 are great for arts, crafts, blinds and furnishings.

Packaging

Great products need to be perfectly packaged too.
Our quality thinking extends from the product design and function right through to the packaging it is supplied in. With environmental needs at the forefront of our thinking we strive for eco-friendly solutions and aim to provide customers with all essential information. Packs display great consumer detail such as compatibility, function, major applications and features plus, of course, any related safety issues.
We are committed to Euro 5 labelling.

Buff Boxes

Many staple and nail packs come in both small retail versions as well as these larger commercial boxes for the tradesman using large quantities. Information includes references to popular tools from other manufacturers, translations and EAN 13 barcodes.

Carton

Styled to a high standard and with clear product information, our cartons display easy product/ re-order code identification and large "at a glance" content details on two sides, translations and EAN 13 barcodes. Most cartons are water resistant too.

Retail and Commercial Packs

Many staple and nail packs come in both small retail versions as well as these larger commercial boxes for the tradesman using large quantities. Information includes references to popular tools from other manufacturers, translations and EAN 13 barcodes.

Innovative and Convenient Alternatives

Aside from popular standard packs of staples and nails in both small retail and bulk versions, Tacwise also offers a number of innovative packs including its nail and staple selection packs. All are designed to provide convenience and best value for the consumer.

Selection Packs

A convenient and cost effective alternative to buying single-sized fixings in bulk. These premium quality assorted staples and nails come in handy selection packs. Offering significant added value the unique packs provide a similar level of user friendliness to the drill bit and blade selection packs that are common within the tools trade.

Retail Clams

Neat "try me" clams show off tool features. Most tools are supplied with an information booklet and a starter supply of fastenings. Packaging for higher value items also includes a security device label. All with translations and EAN 13 barcodes.

Retail Tool Box

The benefits are clear to see on our bright eye-catching full colour packaging. Descriptive details of major applications, translations on the leading surface and easy product/re-order code identification for nails/staples used. Safety/warning precautions and easy reference symbols, EAN 13 barcodes as well as instruction manuals with clear illustrations.

Carry Case

Tough carry cases are the most popular form of packaging for tool protection and to retain associated components in one neat store. These cases are retailed with full colour sleeves or labels, to make clear the suitability of each tool to its prospective new owner. Incorporates all of the features of the retail tool box.

Committed to excellence

Care throughout the supply chain

We are committed to excellence in health and safety management and are continually seeking ways to conserve natural resources, to reduce the amount of energy we use, to eliminate pollutants and hazardous substances from our products, processes and to maximise the use of recycling.

Time and focus has been directed towards the coatings on our metal products to ensure traditional methods are changed in favour of modern eco-friendly ones without ever compromising quality. Galvanising in place of copper and nickel in place of chrome. Parts are easily disassembled in order to allow for specific recycling, such as our tackers, when compared with others, which are welded or pressed together making them impossible to repair and difficult to recycle.

We are putting the environment in front of our marketing desires so that packaging is not oversized, nor overly complicated and considerable thought into making its eventual recycling as easy as possible. Products are designed and created to achieve strength and longevity with strong materials formed into shapes able to out-perform larger heavier non eco-friendly items supplied by others.

Our worldwide customers expect us to make our designs, developments, manufacturing processes and products as energy efficient and environmentally responsible as possible. It is a continuing mission.

Like quality, environmental management is a journey without a destination. We have to think globally and act locally. After all, we are all in this together.

Variations of Air Tool Triggers

Any tool likely to be used to fire higher volumes of fasteners at speed will almost always be capable of bump firing or (in the case of very small upholstery type tools) require no additional safety system other than the standard single or double trigger.

A sequential or single shot trigger will usually be fitted where exact placement of the fastener is most important.

Sequential Firing (red in colour)

This system also requires the nose safety to be depressed against the nose surface. However, this MUST be done prior to activating the trigger or the tool will not fire. This means that even if the trigger is held up, the tool will not fire if the safety contacts a surface either accidentally or on purpose.

With a sequential safety it is possible for the tool to continue to be fired all the time the nose safety is depressed against the work surface. Once released the exact same sequence (hence sequential firing) must be repeated in order to fire an additional fastener(s).

For speed firing, you may choose to leave the nose pressed against the work surface with the nose safety depressed and slide the tool along the work piece whilst activating the trigger.

Single Shot Firing

This safety mechanism will only ever allow one fastener to be fired at a time. To fire the next fastener, the nose safety needs to be lifted from the work surface and the trigger allowed to reset.

Safety Trigger

This is purely a safety locking device whereby the main trigger cannot be activated until the secondary trigger is depressed.

Contact Trip (Bump Firing)

This allows a fastener to be fired whenever both the nose safety trip and trigger are activated simultaneously. Consequently, fasteners can be fired at speed by holding up the trigger and repeatedly bumping the nose against the workpiece (referred to as bump firing). Effectively the tool drives a fastener each time it is 'bumped'.
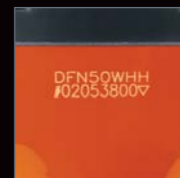

The contact trip (nose safety) still prevents a fastener from being fired if it is not depressed against the work surface, however, if the trigger is activated and the nose safety trip accidentally touches against an object or person, a fastener will be fired. Therefore, UNDER NO CIRCUMSTANCES should an operator hold or carry a tool around with the trigger depressed.

Unless reasonable downward pressure is maintained on the nose safety after firing, it is possible for certain tools to recoil back from the work surface and then fire again on re-contact (only if the operator continues to hold up the trigger).

To prevent this from happening, these tools should be allowed to recoil far enough to release the contact trip and avoid a repeat cycle of the driver, which fires a fastener. It is possible to purchase a single shot trigger (usually red) for most contact trip tools in the Tacwise range - please contact our service department for details.

Serial Numbering

Product name and serial number for easy identification and reference.
