To calculate your shipping charges, you can look at SpeeDee Delivery (best option usually), UPS, and USPS to get a good idea. Please call or email before you send your check to confirm your actual shipping cost.

As soon as I receive your check, I will ship your order. If you decide to pick up at the farm, you may pay for the corn then.

Please note, Abbe Hills OP seed corn may be grown and saved for on-farm use for future crops, or used as a source of traits to develop new, unique yellow dent corn varieties by farmer breeders. It may not be grown to produce a seed crop for future sale, by any name (as “Abbe Hills” or any other), without written permission from me, Laura Krouse. To learn more, look at the Abbe Hills Farm website, [www.abbehills.com](http://www.abbehills.com), in the section called “Improving Corn”.

If you are a seed dealer, you are welcome to resell 2017 Abbe Hills OP as long as each bag is labeled so that it includes all information legally required on seed labels, plus the full warranty provided by Abbe Hills Farm. Full label requirements are available at the Abbe Hills Farm website.

Thank you for your business. Hope to hear from you soon.  
Laura Krouse
