

## Illegal Immigrant Rights

Well our country has now hit an absurdity level that defies reasonable explanation. Consider two actions that are occurring. Sanctuary cities protect illegal criminals from arrest and prosecution while not offering the same protection to legal citizens who commit the same crimes. Emory University in Georgia is offering 100% free tuition to undocumented workers whether they are DACA or not. This benefit is not afforded to legal US citizens, legal immigrants or foreign students. At what point in the liberal/socialist collective mindset will they see that these actions are not only idiotic, but anti-American. Illegal immigrants now have more rights than US citizens! My advice to high school grads is to give up your US citizenship, leave the country and sneak back in and you can go to Emory University for free. After graduation and a few years of permanent residency, you can reapply for US citizenship, but then you may have to give up your illegal immigrant rights.
