

MISSION

Hybrid construction for outstanding rigidity

Two-piece resin decorative ledge cover that won't chip, peel or splinter.

Uprights designed for maximum strength and engineered to be reliable for decades.

Bottom plate with integrated foot cover made in resin.

Your above ground pool has been designed to provide you with years of safe, family fun. This entails that water safety must always be taken into account. When used incorrectly, your above ground swimming pool can be dangerous; above ground pools are shallow, and this makes diving and jumping unsafe. To ensure your above ground pool is used safely, you must observe the safety precautions that are provided to you when you purchase an above ground pool and conform to all local regulations. © Copyright 2014
