BILLING

The above rates and tariffs may be billed either on a monthly or quarterly basis.

Service by the Company shall be continued and billed to the customer accepting service on a year-round basis. Whenever the supply of water is disconnected at a customer's request and a request for reinstatement of water service to the same premises is made by the customer of record or any adult member of that customer's household, the customer shall pay the minimum charge per applicable meter size for each billing month or portion thereof for the period of time that service was disconnected, plus a \$15.00 reconnection fee, to restore service.

DELAYED PAYMENT PENALTY

The above schedule is net. On all accounts not paid in full when due, ten percent will be added to the net current amount unpaid. This delayed payment penalty is not interest and is to be collected only once for each bill where it is appropriate.

RECONNECTION FEE

\$15.00

To be charged whenever the supply of water is turned off for violation of rules, non-payment of bills, fraudulent use of water or as noted above.

TAP FEE

The following charges are to be made whenever the utility installs a new tap to serve an applicant:

A tap fee of \$300.00 will be charged to customers applying for service before construction is completed adjacent to the customer's premises in connection with a certificate proceeding before the Commission. This pre-construction tap fee will be invalid after the completion of construction adjacent to an applicant's premises that is associated with a certificate proceeding.

A tap fee of \$350.00 will be charged to all customers who apply for service outside of a certificate proceeding before the Commission for each new tap to the system.

RETURNED CHECK CHARGE

A service charge equal to the actual bank fee assessed to the utility up to a maximum of \$25.00 will be imposed upon any customer whose check for payment of charges is returned by the bank due to insufficient funds.

METER TESTING REQUESTED BY CUSTOMER

The customer may request that the utility test the customer's water meter if the customer does not believe the meter is recording accurately. The customer may request a test of his/her meter every twelve months at no charge to the customer. If the customer requests additional tests within any twelve (12) month period, and the test determines that the meter was recording accurately, the customer shall be charged \$25.00 for each additional test. The customer shall not be charged if the meter was inaccurate by more than 2%.

LEAK ADJUSTMENT

\$2.33 per 1,000 gallons is to be used when the bill reflects unusual consumption which can be attributed to eligible leakage on the customer's side of the meter. This rate shall be applied to all consumption above the customer's historical average usage.
