

CMS INCORP

## Custom Manufactured Systems Inc.

We at CMS Inc. are pleased to announce the formation of a new design build company that offers true end to end solutions for your process. CMS Incorp is the collaboration of skilled process design experts and mechanical installers with over 25 years of experience.

We take immense pleasure in revealing the launch of our new facility which will be a One Stop Shop for your needs.

- Design engineering with stamped drawings and pressure vessel calculations
- Manufacturing of ASME VIII vessels & heat exchanger designed for process
- CSA B51 shop TSSA approved for Carbon and Stainless steel
- B31.1 and 31.3 pressure and power piping
- Boilerhouse design, retrofit and installation
- Managed service programs for Maintenance and upkeep for building owners
- Energy audit and surveys for steam, compressed air and hydronic systems
- Electrical and Automation Solutions using reputed Manufacturers.

We are experts in Design and Installation of HVAC equipment, central utility plants and process equipment with emphasis on steam & hot/chilled water.

 18 JARVIS ST, CAMBRIDGE, ON N1R 1G8, CANADA
