

**“Uptime, All the Time!”  
POWER SYSTEMS**

## Lunch and Learn Presentation

Uninterruptible Power Supplies or “UPS” are being applied on a wide range of projects, not just data centers. A5 Power Solutions and ALH Power Systems have teamed together to offer the most comprehensive suite of both Commercial and Industrial UPS, to cover any application. We are currently offering an interactive presentation discussing the when, why and how to apply each type of UPS properly. This presentation is suitable for both senior and junior level engineers and will include lunch of your choice. Reply now to schedule your lunch and learn today or we will follow up with you shortly to see if we can fit into your firm’s busy schedule.

Respectfully,

Adam Hauschild  
(847) 571-6557

# THE INDUSTRIAL UPS DIFFERENCE

**WHAT SEPARATES AN INDUSTRIAL GRADE  
UPS FROM COMMERCIAL GRADE UPS?**
