And also a photo of a \$336.82 day in just one of my affiliate accounts.*

First and foremost you want to **Pick A Profitable Niche.**

I personally work with the 'make money online' niche and it is by far one of the most profitable. Other great **NICHES** are health & fitness, beauty makeup & cosmetics, self help & personal development.

Once you have decided on your niche... it's time to create some quality content! By giving away information you will be able to build an audience, a group of buyers, loyal followers and become known as a trusted advisor in the niche.

I will get more into ways to profit with affiliate marketing as we move through this ebook. Some of them are through building an email list, youtube videos, facebook groups, social media, webinars, you name it... it's ALL listed here! Make this your **HOLY GRAIL TO ONLINE MARKETING.**

Once you pick your niche and begin providing quality content to the market place... you must have something to sell! This is where you pick a product related to your niche and grab an **AFFILIATE** (referral) link. Every time someone visits your link and buys - you will earn a commissions!

With affiliate marketing sometimes you have to pay to be a reseller and sometimes you don't. Let's first talk about where you can register for **FREE AFFILIATE PRODUCTS** to promote.

#2 Earn With A Blog & Google AdSense

LOVE TO WRITE? Love to share your journey and valuable information for your selected niche? The most successful bloggers are real and authentic, allow their personality to shine through!

Set up your blog with [WordPress.com](#) and use [Hostgator.com](#) to host your content. Make sure you have a place to collect emails. Stay consistent and create regular content! And most definitely make it **FUN!**

[Read more about setting up a successful blog here >>](#)

Now its time to **MONETIZE YOUR BLOG!** Google AdSense is one of the most simple ways to do this. *(Google has a rule that you cannot show your income)*

The screenshot shows the Google AdSense dashboard. At the top, there's a navigation bar with tabs for Reports, AdSense for Content, AdSense for Search, Referrals, and My Account. Below this, there's a section for 'Today's Earnings' with a red arrow pointing to the 'View payment history' link. A 'NEW' notification is also visible. The main part of the dashboard is a table showing performance metrics for different AdSense services. The table has columns for Page Impressions, Clicks, Page CTR, Page eCPM, and Earnings. The 'AdSense for content' row shows 19,339 page impressions and 520 clicks, with a red arrow pointing to the 'Earnings' column. The 'AdSense for search' row shows '- No data available -'. The 'Referrals' row shows 8 clicks, 0.1% CTR, 0 sign-ups, and 0 conversions, with a red arrow pointing to the 'Earnings' column. The 'Total Earnings' row shows \$0.00, with a red arrow pointing to the 'Earnings' column.

What is Google AdSense? It is a program for those that create content to monetize their work. Advertisers bid for cost per click to their websites and Google pays you for traffic coming from your blog. You are providing a space for other advertisers in your niche to get their products seen in the form a banner on your blog.

[Read more about profiting with Google Adsense here >>](#)

Once you have content and **Google AdSense** hooked up, make sure you backlink and ping your content to get it found! Some of my favorite sites for this:

[FreeBackLinkTool.com](#)

[Pinger.com](#)

I highly recommend creating various versions of your content that you write on your blog and linking it back to your original **BLOG**. You can do this by hand and post them on these sites:

[Ezine Articles](#)

[IBO Toolbox](#)

[HubPages](#)

[Merchant Circle](#)

[Blogger](#)

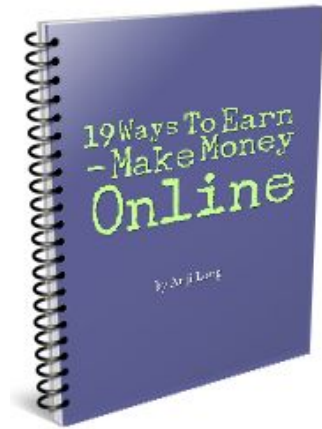

Or you can utilize this [Fiverr Gig](#) I use to spin and backlink my content to 1200 article sites. That is some serious link juice right there! Utilizing these tools and following these steps exactly will equal **MORE MONEY IN YOUR POCKET!**

#3 Earn With Ebooks & Info Products

You're looking at the perfect example of how to **PROFIT WITH EBOOKS!** People online have an insatiable need for information. Packaging your knowledge is one of the best ways to get rolling with online income and positioning yourself as the expert.

And in all actuality you don't have to be the expert. You can simply guide people through a process of where to get information.... link back to and reference other experts.

19 WAYS TO EARN: MAKE MONEY ONLINE

By purchasing **this ebook** you have resell rights to my expert insights and others will thank you for sharing it with them.

Now you can also purchase **PRIVATE LABEL PRODUCTS** where someone else has written the content and you have the rights to repackage it with your name or brand (*this ebook is not private label*).

But... How easy is that? You don't even have to write it yourself if you use a private label product.

PLR PRODUCTS can be found in a variety of places. Simply Google PLR products and a ton will come up! You can also purchase them in bulk. Just make sure its quality content before you put your name on it!

I personally have not used this site but it has been recommended to me:

PLRMiniMart.com

If you're creating your own ebooks or you're repackaging **PLR** products... you want to include links to **AFFILIATE PRODUCTS** you promote or that will help add to the information you are sharing.

By including links to affiliate products, you are increasing your earning potential plus helping your customer get the best products to assist them in their goals.

When it comes to **PACKAGING YOUR EBOOK**, a good place to work through your content is Google Docs. Then all you have to do in order to convert it into a PDF is simply go to File, Download as PDF.

19 WAYS TO EARN: MAKE MONEY ONLINE

To use Google Docs, simply create and log into a gmail account. Go to drive.google.com and click New - Google Docs. Begin your ebook there.

Now, **GRAPHICS** are a huge part of your products looking professional. You can go to [Fiverr.com](https://www.fiverr.com) and sort through the graphics section, find someone to create one for you.

Here is a Free service on Fiverr. [Claim it now!](#)

Or you can use these recommended gigs on Fiverr for \$5 bucks:

[Ebook Cover Gig](#)

[Ebook Cover Gig 2](#)

Once you have your cover ready to go, you will look like a pro and positioned to SELL SELL SELL. Get ready to bring in the cash \$\$... But first....

Now the fun part - **CASHING IN** with your Ebook by promoting it! But you ACTUALLY have to do the work to make traction...

1. **Forum Marketing:** Add your link to your signature and commenting on relative threads
2. **Article Marketing:** Create quality content and link back to your site, submit to various article directories
3. **Jvzoo & WarriorPlus:** Add your product for sale on these sites to create visibility and attract affiliates to sell for you as well.
4. **Fiverr:** Add your ebook to Fiverr to pick up their natural traffic flow
5. **Ebay:** Add your ebook to Ebay to pick up their traffic flow as well

(con't)

6. **Solo Ads:** Create a capture page and stick a free giveaway inside related to your ebook topic then close with call action to buy your... ebook. Purchase clicks to your capture page from a proven vendor. This group is a great resource: [Solo Ad Testimonials](#)
7. **Facebook:** Your best potential customers are those that are already connected to you and know, like, trust you. Promote on your facebook wall and in facebook groups - better yet develop your own value based Facebook group.

It's not going to sell itself, get out there and **PROMOTE, PROMOTE, PROMOTE!** :)

Need help with any of the above marketing strategies or putting your ebook together? [Virtual Profit System](#) will be the perfect learning hub for you.

#4 Earn With Ebay Dropshipping

Ebay is one of the largest online shopping center and has floods of buyers and natural traffic on a daily basis. The great thing about dropping is you don't have to stock any physical products or inventory and deal with shipping. There are no startup costs involved.

Here is the Flow of Dropshipping:

**Find Product on Amazon.com → Relist on Ebay (higher price) → SOLD!
→ Money Goes To Your Paypal → Purchase Product From Amazon.com
→ Ship Directly To Customer → Profit \$\$**

Simply go to ebay.com and register a free account. Find products on other low cost sites such as Walmart.com & Amazon.com just to name a couple... take the listing from that site and re-post on to ebay at a higher price.

19 WAYS TO EARN: MAKE MONEY ONLINE

Make sure you cover the actual cost of the product on the other site, the 17% ebay/paypal fees and also shipping plus still have room left over for profit!

Key To Success: Make sure your title has all the keywords that people would be searching for online to find your products!

Once you get items up that are selling it becomes a very passive income stream - just a couple clicks to repost an item after it sells and just a couple clicks to order from Amazon.com and ship to the buyer.

Like anything this takes some time to get going... but with ebay you have natural traffic that will find your products. Just keep listing and the sales will eventually come!

Facebook groups are a great way to create a **COMMUNITY** feel. More than anything, people love to feel like they are a part of something. Within a community, people like to move “with” the community members. It makes “**selling**” a whole lot easier!

#8 Classified Advertising

Classified sites such as craigslist.com and backpage.com are a great place to get a start with cost effective advertising. Its comparable to a newspaper on the internet.

Create a free account and post to classifieds. I find it helpful to search through and see what everyone else is posting in these categories:

The screenshot shows the Craigslist website for South Florida. The main navigation bar includes the Craigslist logo, the location 'south florida', and filters for 'mdc', 'brw', and 'pbc'. A red arrow points to the 'post to classifieds' link in the top left. The left sidebar contains links for 'my account', a search bar, an event calendar, and various help and status links. The main content area is divided into several categories, each with a list of sub-categories. Red boxes highlight the following sub-categories: 'general' under 'community', 'customer service' under 'jobs', 'marketing / pr / ad' under 'for sale', 'sales / biz dev' under 'retail / wholesale', and 'sm biz ads' under 'services'. The right sidebar shows a language dropdown set to 'english' and a 'nearby ci' section listing various cities.

You can do image ads, text ads, ads to contact you directly.

i have done a combination of ad types but I have found the ones that work the best are those with a short description of what you have to offer as a person or business consultant with your direct email contact.

You try the service and you can decide to keep it or cancel it before you pay. Many times they let you keep the products for free. By doing this you collect credits. Once you have enough credits to activate your freebie site, you can then **refer others** to try these products and services the same way you did.

Every time one of your referrals completes enough credits to also activate their site (by trying products and services for free) you get paid! Pay is usually anywhere between **\$20-\$130**. It actually adds up fast.

Videos, Articles, Newsletters and Ebooks can all be housed inside your site. You can add to your site, weekly or monthly. Do live events (google hangouts) for your members and keep them engaged inside a **Facebook Group**.

Your membership site can be anything from fitness program, nutrition program, make money program, personal development, gaming, you name it! Find your niche and create the content, get out there and market and you could start building up a huge database of monthly paying customers.

[Here is an example of ours >>](#)

If you make just \$49 per member and you have a minimum of 250 members here's what your income could look like in just one year. I'll give you very modest numbers but you can always add new members each month and your income will continually grow.

49 X 250 = \$12,250 per month X 12 months = \$147,000 per year!

#15 Earn With High Ticket Products

One of the quickest ways to reach a high level of income with less time is high ticket sales. Products worth over 4-figures. You need less sales to earn more.

You can sell high ticket via written sales pages, video sales page, webinars, email list, etc.

[My favorite high ticket program >>](#)

\$3498 x 24 (2 sales per month) = \$83,952 per year

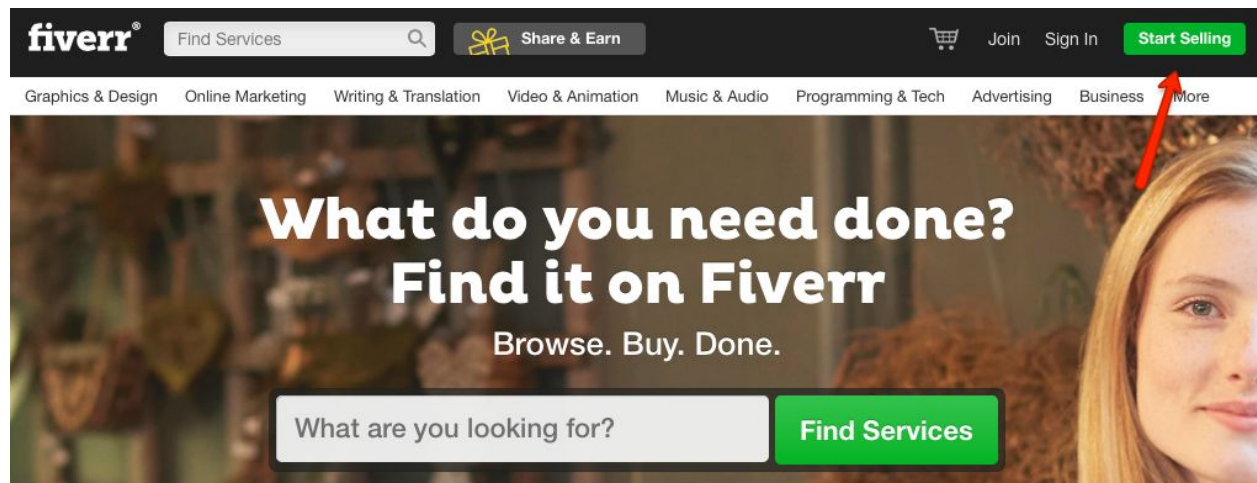

Same amount of time and effort involved for low ticket sales. Just a higher investment level to get started (in order to be able to resell).

#16 Earn With Fiverr

Fiverr is a place to buy and sell services for \$5 bucks. Sellers have the option to offer gig add ons for more - up to \$1400 for their services. People offer anything from writing websites on their hand and snapping a pic for your advertising to purposes to voice overs to social media management, graphic design, any talent, etc.

19 WAYS TO EARN: MAKE MONEY ONLINE

Think of something you are great at that takes minimal time that you can offer for \$5 bucks. Then think of some upsells that you can charge more for that are congruent with the first offer.

Fiverr has a great natural traffic flow and customer base. So put your gig up and watch the orders flood in.

Want support with your Fiverr business? Our community has successful sellers, you can get your questions answered! [Connect here >>](#)

Some additional recommendations:

Backlink your gigs, share them on social media, share in Fiverr Facebook groups, write articles about it, etc etc. Get a handful of friends to order and give you testimonials to kick start your gig.

#17 Earn With Interviewing Experts

This is probably one of the easiest ways to earn. You find an expert in your niche and simply reach out to them and ask if you can do an interview with them. You can do your interview as an audio or video such as google hangout. Compile a list of questions that they can answer in depth to give your niche value.

Visit forums where people in your niche hangout and ask questions. Use those questions in your interviews.

That in itself is a product. People will pay for the knowledge from that expert. Just whip up a sales page (I use [LeadPages](#)) or Wordpress with Profits Theme. You can also outsource it. Then place your product for sale on jvzoo, warrior or clickbank.

You can even commit to doing regular interviews and turn it into a membership site as well.

You don't have to be the expert, just connect to the experts and share their value. This equals more exposure for them and more credibility for you!

#18 Earn With Residual Income Programs

Many online companies will pay you residuals, monthly commission, on your referrals. Unlike a traditional 9-5 you have to keep showing up to get paid and you can only get paid on your efforts once complete. With residuals you can do work once and continue getting paid. This is called **LEVERAGE!**

Let's say you write a book as an outsourcer and you set up an agreement to collect royalties every time a book sells - you did the work once but you continue to receive pay. The same with residual programs. It may be a product or service membership site that someone purchases through your affiliate link. You did work once and referred someone. You continue to get a cut of their monthly payment, every single month.

Working smart not hard. Here is an example of residual income program I use:

I hope that this ebook has sparked lots of ideas about ways to earn and making money online. All you need is an >> **IDEA + ACTION = \$\$\$ Income**

Now you have 19 ideas, pick one and take **MASSIVE ACTION!** Once you get in a good flow you can always add-on other income streams.

Just Remember: anything worth having takes effort. So its up to you to go away and put these methods to work for you!

One of the quickest and easiest ways to start profiting immediately is reselling this ebook for 100% profit. You can sell it on fiverr, ebay, social media, email marketing, articles, signature on forums. Pick a method and master it.

Don't wait until tomorrow, **ACT** while you are still inspired. The number one reason for failure online is lack of following through and lack of **consistency**. Stick with it until you get the results you desire. [Surround yourself with other successful people >>](#)

Don't hop around and get shiny object syndrome. Pick something and follow one course until success (**focus**). Just like anything (such as riding a bike)... At first it seems challenging and eventually it becomes second nature. You no longer have to think how, you just do it!

“I believe in you! If I can do it and hundreds of our students can do it... so can YOU!”
