

### In Support of Schaeffer Cox #3

As I continue down the trail, of corruption, in the DEPARTMENT OF JUSTICE I must continue to express the comments from Rob Carey, Senator Ted Stevens defense attorney.

I was amazed on how ignorant he was on the corruption in the DEPARTMENT OF JUSTICE. He is a high flying attorney in D.C and had no idea of the long history of falsehoods perpetrated on US citizens. Over and over he spoke about the mistreatment, lies actually, directed towards Senator Stevens. Those DEPARTMENT OF JUSTICE attorneys who lied in open court to the judge. How could he have not been unaware of the long list of books written about the corruption in the DEPARTMENT OF JUSTICE. After all, even a nurse like me has followed it for years through the many books written. For example-

“My Country Verses Me: The first hand account by Los Alamos Scientist Who Was Falsely Accused of Being a Spy” Written by Wen Ho Lee in 2001.

According to page 2 of his book, Judge James Parker spoke these words to Mr. Lee on the day he was release, after 278 days in solitary confinement without a trial.(September 13, 2000.)

“Dr. Lee, I tell you with great sadness that I feel I was misled astray last December by the executive Branch of our government through its DEPARTMENT OF

JUSTICE, by its Federal Bureau of Investigation and by its United States Attorney for the district of New Mexico, who held the office at that time.”

According to the attached

“In June 2006, Lee received \$1.6 million from the federal government [our taxes again] and five media organizations as part of a settlement of a civil suit he had filed against them for leaking his name to the press before any formal charges had been filed against him.”

Taint the jury before it is even chosen. Schaeffer can relate.

And what ever happened to those in the DEPARTMENT OF JUSTICE who did this to an innocent man? If you find out let me know.

Another example

“Above the Law: Secret Deals, Political fixes and other misadventure of the US DEPARTMENT OF Justice. Written by David Burnham an investigative writer written in 1996

His documentation goes as far back through our history as a nation. On page 30 he talks about the unchecked power of the attorneys in the DEPARTMENT OF JUSTICE.

“Justice Department Lawyers and the ninety-three U.S. attorneys exercise a virtually unchecked authority in deciding which of the agency investigations will move forward: who will be called before a grand jury, what questions they will be asked and who will be publicly charged. In recent years, as Congress passed laws reducing the authority of judges to decide individual prison terms, the prosecutors also have taken over de facto control of federal sentencing.”

It will,become clear as I discuss Schaeffer Cox’s case why I am giving this extensive background. The issue is credibility. Who to believe the DEPARTMENT OF JUSTICE or a young man named Schaeffer Cox.

It will become clearer as time goes on. It is very clear to me.

For I know the content of the character of Schaeffer Cox.
