

In Support of Schaeffer Cox #4 April 10, 2017

When you understand the back drop on the DEPARTMENT OF JUSTICE it becomes clear on our failed so-called Drug war.

For the DEPARTMENT OF JUSTICE do as they please, supporting the drug trade because of “National Security?”

So many books have been published concerning the so-called War on Drugs. Often they are written by those inside the very agencies who ignore truth and justice. What I call Whistleblowers.

Individuals shouting the truth for all to see and hear.

Here is one,

“The Big White Lie: The Deep cover operation that exposed the CIA Sabotage of the Drug War”
published in 1993 By DEA agent Michael Levine.

A father who lost his son to the drug war. As Michael Levine states on the first page of his book.

“In memory of my son, New York Police Sergeant Keith Richard Levine, killed on December 28, 1991 while trying to stop an armed robbery by a crack addict with a record of two murder convictions. While the CIA and other covert agencies betrayed us, and while our leaders looked the other way, they left it to law enforcement to clean up the mess they made of America.”

Levine quotes John Kerry concerning the Iran Contra Senate Hearings-

“ Senator John Kerry, after hearing evidence of our own government’s massive involvement in drug trafficking during his Iran Contra Senates hearings, including testimony indicating that at least two presidents might have been criminally implicated said that “Our SYSTEM OF JUSTICE had been perverted; that [our covert agencies] had converted themselves into channels for the flow of drugs into the United States.”

That last statement was a direct quote From Senator Kerry.

I repeat the Kerry quote

“Our SYSTEM OF JUSTICE had been perverted; that [our covert agencies] had converted themselves into channels for the flow of drugs into the United States.”

On pages 34 -36 Levine talks about a biggest drug bust in U.S. History. (\$9 million and “piles of Cocaine”) Levine talked about one of the key

players was a man named Jose Roberto Gasser. During Levine's deep cover operation, a Gasser associate explained Gasser did not need any help getting the money out of the country [USA] because he had "many legitimate interests in the U.S. and carries this much drug money every week."

A short time later Jose Roberto Gasser was released from jail and the U.S. Attorney's office, Southern Judicial District of Miami dropped all charges. Levine reports "The Assistant U.S. Attorney who authorized Gassers release was Michael "Pat" Sullivan . . . "

This DEPARTMENT OF JUSTICE attorney claimed there was not enough evidence. Undercover agent Levine disagrees and believed it was because of "Bungling prosecutors"

Bungling prosecutors?

Hogwash.

Too much bad behavior in the DEPARTMENT OF JUSTICE for it to be bungling.

I could get off tract and expose the fake news stories on the Drug War. But that will not help my friend Schaeffer Cox. I share it here to further understand how many whistleblowers have come forward, with the truth, within their own individual governmental agencies.

Another government whistleblower was FBI agent Fredrick Whitehurst. A chemist who was a bomb expert who exposed the falsehoods in the FBI's crime lab.

According to the attached, in regards to Whitehurst's exposure and forced federal investigation on his own department.

“Mr. Bromwich [Department of Justice inspector general] sharply criticized the laboratory for flawed scientific work and inaccurate, pro-prosecution testimony in major cases, including the Oklahoma City and World Trade Center bombings.”

My oh my, “what a tangled web we weave , when we first practice to deceive.”

And the DEPARTMENT OF JUSTICE has developed a complex web of deceit.
