

8 Strategic Actions for the Food and Agriculture Sector

1. **Build** capacity and capability to producing more with less to meet the rising demand.
2. **Build** sector resilience against conflicts and disasters.
3. **Build** food systems that can handle threats like diseases and transboundary pest incidences.
4. **Build** resource efficient, gender inclusive, climate resilient, connected local food system.
5. **Innovate** to improving rural livelihood, reduce poverty and address rural-urban migration.
6. **Innovate** to develop integrated cross-sectoral policies to address interdependent global challenges.
7. **Attract** youth towards agriculture and allied sector services.
8. **Attract** additional investment to build and innovate in food and agriculture sector.

Build. Innovate. Attract.
