Thyme After Thyme

It began over 30 years ago near the ocean shore of Cape Cod... our little herb shop in Brewster on 6A ... We moved to the Southwest to grow wild 20 years ago, where I raised my children and Lavender with horses, dogs, cats, cows, birds, fish, a snake, a turtle, a tarantula and shop in Durango, Colorado! With both daughters back in Colorado, we now spend our summers on the bay and our winters in the southwest enjoying, gardening and growing! Throughout the year we attend Farmers markets from Boston, Plymouth and Provincetown, to Austin, Santa Fe and Telluride! From 14,000 feet to Zero elevation!

We offer exquisite, homemade, bath & beauty products to soothe the mind, body and soul! Using all natural organic ingredients from gardens, fields and forests we blend our products by hand. Since time began, women have always known the right petal, spice, bark or seed to heal, beautify and nurture. We pass generations of recipes, wisdom and blessings down to you.

Herbs, plants and flowers are researched, grown, gathered and used for medicinal, body, skin care and aromatherapy. To learn the history, lore and the lost art of nature's offerings and bounty have become our purpose.

We have been gifted with valuable ancient secrets of herbs and the land. We share timeless beauty treatments given to us by honored wise elders, and pass them on to you in our simple blends, potions and recipes!!!

Enjoy!!!!
