

The Ready-Heat First Responder Line

The Temperature Management Solution

The First Responder solution for active patient warming in any situation:

Emergency Rescue

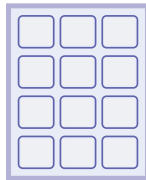

Disaster Preparedness

Air Transport

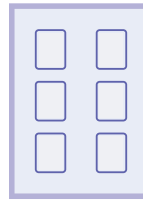

Ready-Heat II

- The #1 selling active warming blanket
- Quick warming blanket, with 8+ hours of active warmth
- Ideal for all patient transport and emergency rescue
- Water resistant top layer made of coated medical grade non-woven material and a foam core
- 5 year shelf life

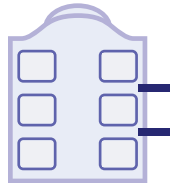

Ready-Heat II Torso

- Modeled after the Ready-Heat II, the Torso is perfect for use inside a reflective shell
- Smaller package footprint, weighs only 14 ounces
- All of the same warming features that make the Ready-Heat II a best seller.

Ready-Heat Infant Cocoon

- Designed to actively warm the most precious cargo
- Consists of 6 thermal pads strategically placed to warm infant's body
- Hood assists in the retention of body warmth and the padded foam core and dual hook and loop design provide maximum comfort and fit.

For the First Responder

Stay warm on the job with proprietary Ready-Heat technology in a disposable heated vest.

Include Ready-Heat in Your:
