AGREE PURPLE-ZONE

Place 30 Cards here to create the  
**START DECK**  
Environment, Learning & Control

## START DECK

Remove the BLUE CLEAN LANGUAGE cards  
Shuffle the card deck, then place on the board  
Taking it in turns, pick up a card from the START DECK  
Read the statement in the lower part of the card to yourself  
Decide if you agree/disagree with this statement for your group  
Place the card face down on the relevant 'AGREE coloured-ZONE'  
In the event you disagree, place face down on the 'DISAGREE ZONE'  
Continue until all cards have been read and placed on the board  
Work out your Readiness score, you need two numbers, X & Y

The X score: Count how many cards on the AGREE GREEN-ZONE  
The Y score: Count how many ORANGE & PURPLE-ZONE cards  
When they both have the same number of cards, Y score = 5  
When not, subtract the PURPLE from the ORANGE count  
Now halve that number and add 5. That is your Y score  
You can also mark on the Poster if you have one  
Record both the date and the X & Y scores  
Record both on the ACE Poster

When you disagree with the  
statement place your card here

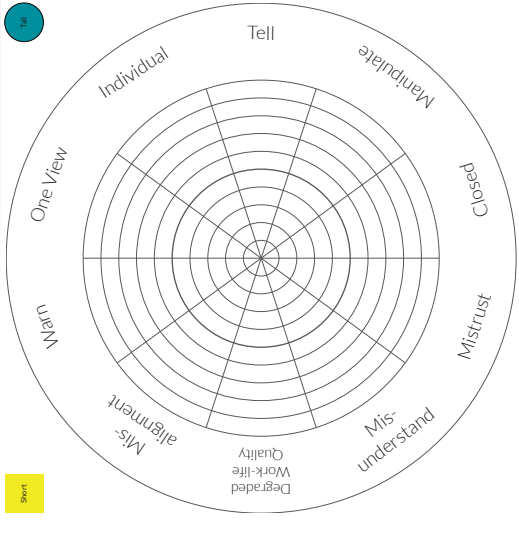

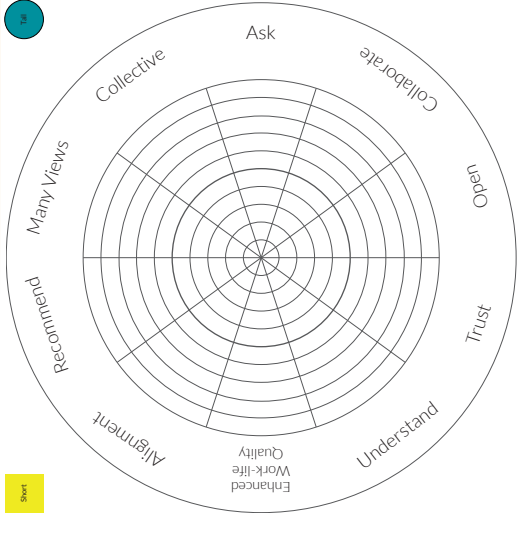

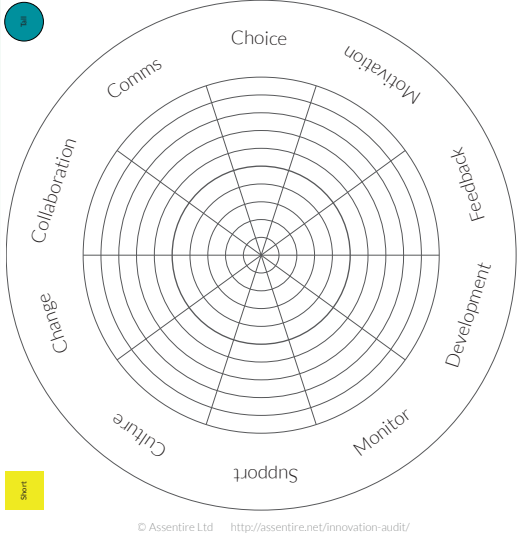

DISAGREE ZONE
