

Leaf Removal & Disposal

Leaf removal is usually done during spring or fall clean up's. There are two ways this could be done, first would be to schedule and appoint for DelleChiaie Landscaping come out and perform a clean up and handle the disposal of the yard waste.

The 2nd option is the home owner can rake the leaves into an area of easy access for our box truck so DelleChiaie Landscaping could come out and vacuum up the leaves and dispose of them properly.
