

I do not have the original source to this document in order to give credit. But, the message is clear. We cannot afford the anti-gun wing of the government to arrest our right to bear arms, lest we become Venezuela or Cuba.

Nothing new but worth remembering! The average hunter would own at least 2-3 rifles. That means he can arm twice or three times as many warriors if needed. This would be the world's largest, best equipped citizen army/add to this the billions of ammunitions acquired just in the last 12 months and you begin to wonder what would happen if this army ever becomes aroused and engaged?

**AMERICA'S HUNTERS ---
Pretty Amazing!**

**The world's largest army...America's hunters!
I had never thought about
this...**

**A blogger added up the deer license sales in just a
handful of states and
arrived at a striking
conclusion:**

**There were over 600,000 hunters
this season in the state of Wisconsin ..
Allow me to restate that number:
600,000**

**Over the last several months,
Wisconsin's hunters became the eighth largest army in
the world.**

More men under arms than in Iran.

More than France and Germany combined.

These men deployed to the woods of a single American state, Wisconsin, to hunt with firearms, and no one was killed.

That number pales in comparison to the 750,000 who hunted the woods of Pennsylvania and Michigan's 700,000 hunters, all of whom have now returned home safely.

Toss in a quarter million hunters in West Virginia and it literally establishes the fact that the hunters of those four states alone would comprise the largest army in the world. And then add in the total number of hunters in the other 46 states. It's millions more.

The point?

America will forever be safe from foreign invasion with that kind of home-grown firepower.

Hunting... it's not just a way to fill the freezer. It's a matter of national security.

**That's why all enemies,
foreign and domestic,
want to see us
disarmed.**

**Food for thought,
when next we consider gun control.**

**Overall it's true,
so if we disregard some assumptions that hunters
don't possess the same skills as soldiers, the question
would still remain...**

What army of 2 million would want to face 30, 40, 50 million armed citizens???

(if you agree, I do, pass it on, I feel good that I have an army of millions who would protect our land and I sure don't want the government taking control of the possession of our firearms)

**For the sake of our freedom,
don't ever allow gun control
or confiscation of guns.**
