Dear Friends,

Thank you for the invitation to join you as you participate in *Girls in Technology Day*. Today's activities will explore the many educational and professional opportunities available in the STEM fields for young women in New Hampshire.

I commend our state's education and business partnerships for today's hands-on learning activities. Robust investment in STEM learning is critical for tomorrow's workforce and the 21st century economy. I will continue my work in Congress to support and promote STEM education. I thank you for organizing and participating in today's event to improve access to technical instruction.

On behalf of my constituents across New Hampshire's Second Congressional District, thank you for all you do to make New Hampshire a great place to live, work, and raise a family. If I may support your efforts in any way, please don't hesitate to be in touch.

Sincerely,

A handwritten signature in blue ink that reads "Ann McLane Kuster". The signature is fluid and cursive, with the first name "Ann" being particularly prominent.

Ann McLane Kuster
Member of Congress
