Important Safety Instructions

• Use this product only for its intended use as described in this manual.
• Do not allow children to use this product. This is not a toy.
• If any part of the Grab It™ tool appears to be damaged or malfunctioning, discontinue use immediately.
• Spot clean as needed.
• Do not attempt to lift objects that weigh more than 5 pounds.
• Not for commercial use.

How to use Grab It™ tool in Standard Mode

1. Make sure that the switch on the top of the handle is pushed forward. Press the blue button on the top of the handle then push the switch forward.

2. To use the Grab It™ tool as a grabber, simply place the grabbers around the object you want to pick up and squeeze and hold the trigger.

3. When you want to put the object down, place the object on a solid surface. Once this is in place, gently release your grip on the trigger.

How to Open and Close Grab It™ tool

To open and close your Grab It™ tool, press and hold the blue Folding Button in the middle of the unit while folding or unfolding it.

IMPORTANT: Always push and hold the Folding Button before locking.
How to use Ratcheting Mode

Make sure that the switch on the top of the handle is pushed back.

To use the ratcheting feature, simply place the grabbers around the object you want to pick up and squeeze the trigger of the handle until it is snug around the object and no longer makes a clicking sound. **DO NOT OVERTIGHTEN.**

Pick up and place the object on a solid surface.

Push the blue button on the top of the handle to release the object.

If you want to switch to Momentary Mode, slide the switch on the top of the handle forward until it clicks into place.

Rotating the Grabbers

To reach into tight areas, pull the grabber end out, rotate 90 degrees, and push it back in.

How to use the Flashlight

To use the flashlight, simply push the switch located on the side of the handle forwards until the light illuminates. Push it backwards to turn the flashlight off.

Other Features

**Hook**

Your Grab It™ tool also comes with a hook, which can be used to pick up jewelry.

**Magnet**

The Grab It™ tool also has a built-in magnet, which can be used to pick up car keys, paperclips, or other small metallic objects.

Battery Replacement

The Grab It™ tool comes with batteries installed.

**First Use:** Remove the plastic battery tab, and you will be able to use the flashlight immediately.

**To Replace:** Remove the battery compartment cover using a Phillips screwdriver. Insert 3 AG13/LR44 batteries in the polarity direction shown. Replace the cover.

**BATTERY WARNINGS:**
- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
- Batteries must be inserted with the correct polarity.
- The supply terminals are not to be short-circuited.
- Remove batteries if the item will not be used for an extended period of time.
- Non-rechargeable batteries are not to be recharged.
- Only batteries of the same or equivalent type as recommended are to be used.
- Exhausted batteries should be removed from the item.
