

PA720

Compact design but powerful, Unitech PA720 enterprise digital assistant brings performance, durability and speed into a distinctive device. Powered by the latest Android 6.0 operation system and a quad-core processor, this device improves overall stability and delivers unparalleled performance. In addition, PA720 is also integrated barcode imaging technology and 4G LTE wireless communication. It is a versatile data collection tool for every need in the enterprise solutions.

PA692A

The PA692A is a rugged mobile computer that combines the latest 4G wireless communication and advanced performance to provide the best data communications in today's aggressive business environment. PA692A also offers field-based workers with a host of data collection tools and a comprehensive wireless communication platform, all in a compact, durable and ergonomic form factor.

PA700MCA

Unitech PA700MCA brings a new level of compact size, functionality and durable construction to a mobile clinical assistant. Not only delivering a slim device with stylish look, but also equipped with hospital-grade functions to meet the needs in healthcare environments. PA700MCA is an ideal portable tool to streamline work process of patient care.

PA700

Unitech PA700 brings a new level of compact size, functionality and durable construction to an enterprise digital assistant. Not only delivering a slim device with stylish look, but also equipped with industrial-grade functions to meet the needs in mobile workforce. PA700 is an ideal portable tool to streamline work process in retail and field service.

PA400

Unitech, a global provider of automatic identification and data capture technologies, is pleased to announce availability of the PA400 rugged industrial PDA. The PA400 offers extreme reliability and toughness for demanding environments, together with powerful data gathering technology, and all the flexibility of any other modern PDA.

PA820

The PA820 is built to enable high performance and reliability in the challenging environments. PA820 is rugged enough to drop from the 1.8 meters onto concrete. In addition, it has IP66 certification, completely sealing durable housing against dust and moisture to withstand high pressure water jets.

PA692

The PA692 is a rugged mobile computer that combines the latest 3.75G wireless communication and advanced performance to provide the best data communications in today's aggressive business environment. PA692 also offers field-based workers with a host of data collection tools and a comprehensive wireless communication platform, all in a compact, durable and ergonomic form factor.

PA520

Unitech PA520 is a compact sized enterprise PDA that provides a comprehensive wireless platform since it integrated WiFi and Bluetooth communication, making it quick and easy to stay connected. Equipped with 1D / 2D imager, RFID reader, NFC and Windows embedded handheld 6.5 operating system all in a compact and durable form factor, this device is designed to empower the mobile workforce for daily jobs in sales automation and field service applications.
