

Desktop Thermal Printers

WS4 Series

Introducing the SATO WS4 Series of desktop thermal printer models. The new WS4 is a feature rich, affordably priced, thermal printer with great production throughput and exceptional print quality at either 203 or 300dpi. Designed with connectivity in mind, the WS4 printer has USB, RS232 and Ethernet interfaces standard. It also features optional Bluetooth or 802.11 WLAN communication interfaces further expanding its versatility.

CG2 Series

With superior performance and affordable price, these 2" or 4", 203 or 305 dpi, Direct Thermal/Thermal Transfer printers are best in their class. The SATO CG Series models are delivered stock out of the box with competitive emulations onboard and optimal interfaces (built in USB standard) for outstanding performance in clinical and processing environments.

CG4 Series

With superior performance and affordable price, these 2" or 4", 203 or 305 dpi, Direct Thermal/Thermal Transfer printers are best in their class. The SATO CG Series models are delivered stock out of the box with competitive emulations onboard and optimal interfaces (built in USB standard) for outstanding performance in clinical and processing environments.

CT4i Series

At the core of the CT4i printers is a new generation ultra high speed processor. With high data transfer rates and processing speed the CT4i printers will print continuously, without pausing between labels, even with changes in data and graphics on every label. An important added feature of the CT4i Series printers is the Windows® driver which allows the creation of labels using virtually any Windows® based program.

CP-2140Z Series

The CP-2140Z 4" thermal transfer printer is ideal for customers who print a lot of labels but don't have the space or budget for an industrial printer. The CP-2140Z can print up to 4 ips, and the ability to use 300M ribbons means fewer roll changes.

OS Series

The OS2140D direct thermal and OS214plus thermal transfer printers have an attractive price rarely seen for 4" desktop models. The OS2140D can print up to 4 inches per second, and the OS214plus can print up to 3 ips. These competitively priced printers are reliable and easy to use.
