Careers in Web Design

With your partner:

"Google" Web Design Careers

Navigate to three websites-that are not sponsored- and research Web Design Careers

In a Word Document, create a three column table, and answer these questions for each of the three researched websites:

1. What is the average hourly salary for a web designer?

2. What does a web designer do?

3. What education does a web designer need to succeed?

4. Who are some other people that a web designer interacts with?

5. Where are some of the cities- US and global- that will be hiring web designers in the future?

6. From the perspective of a customer, does a web designer need to have face-to-face meetings or

   can the web development process be completed in a virtual world? Why or why not?

Add your names to the header of the document, save and place in the class inbox!
