

When Should You Consider a Feng Shui Consultation?

- If you are selling or buying your residence or business.
- If you are considering purchasing land and building your dream home.
- If you are considering remodeling.
- If you are starting a new career, a new project, or entering a new phase of your life and want to make sure that you get full support from your environment and its energy.
- If you are stuck in a negative situation with no obvious way out.
- If you want to restore your family's balance and enhance your health, prosperity, relationships, creativity, etc.
- If you want to clear the clutter in your home or office and don't know where to start or don't seem to have the energy to begin.
- If you have been in the same residence or office for a long time and need to infuse it with fresh energy and add some excitement to your life.
- And certainly, if you are already successful and energetic and want even more of that in your life!

Did you know?

Adding "pairs of things" in a bedroom such as: 2 candles, 2 hearts, 2 birds, or any other 2 things that bring you JOY and HAPPINESS will always help. Pairs represent PARTNERSHIP - the essence of love and good fortune.

One should definitely be careful when using mirrors in the house. While most of the time it is safe to use a mirror in the dining room or eat-in kitchen, you should avoid placing mirrors in front of the entrance doors to the house because you turn good energy away.

Scrubbing and cleaning windows, doors, floors, and walls - as well as adding a "fresh" coat of paint throughout - will help remove negative energy from a property. Leave windows open as often as possible to refresh, circulate, and accumulate new life force energy.

"Nonna's Feng Shui system works! Take it from the biggest skeptic, she taught us to deal with challenges at home and work!"

"We received 3 offers on our house within weeks after implementing easy and inexpensive changes suggested by Nonna. It was hard to believe that it was the same house we've been trying to sell for 2 years."

"I attended various trainings, but can say Nonna's system really works! Our accounting business came back to life, and we have more customers and a gradual profit. Most importantly, our employees love coming to work and use less sick days."

"As longtime Nonna's clients, we are grateful to her for our better health, balance, improved relationship with our children, better job for my husband, and my son's repaired family. Nonna's coaching made a dramatic difference for us."
