

# Fluorides & Chemicals

## COA for Ammonium Fluorozirconate

<b>Product name</b>	Ammonium Fluorozirconate
<b>Chemical Formula</b>	$(\text{NH}_4)_2\text{ZrF}_6$
<b>Molar mass</b>	241.29
<b>Colour</b>	White crystalline Powder

Typical Analysis	Typical Specification (Technical grade) %
SiO <sub>2</sub>	0.05
Fe	0.02
Cl	0.01

### **Applications:**

- It's the main raw material of white glazed ceramic tile; In chromate solution can improve the corrosion resistance of steel. zinc, lead and other metals
