

# **Com S.I.T. Announced as Fremont Micro Devices Distributor**

**Fremont, CA March 1, 2017 / PR WEB Press Release/ --**

## **Com S.I.T. Has Supplied Semiconductor Solutions for 30 Years**

Fremont Micro Devices USA Inc., a global leader in the design and manufacture of Serial EEPROM and energy efficient power management integrated circuits, today announced that Com S.I.T. Headquartered in Middleton, MA has been named to represent their Integrated Circuit product line. This addition to the FMD Distribution network continues to affirm its strategic initiative of providing customers with easy access to their broad offering of semiconductor solutions. Under the terms of the agreements, Com S.I.T. is an Authorized Distributor with a franchise to sell and support Fremont Micro Devices non-volatile memory and the power management product portfolio of DC/DC controllers and LED driver solutions to OEM's in a wide range of information technology, commercial and consumer markets.

"Com S.I.T. is a major distributor and service provider for electronic components world wide. They were founded in Germany, and have a strong sales network and have offices in Europe, Asia and America. They ensure long-term competitive advantages for their customers. Com S.I.T. was chosen as our Distributor, because they have an extensive product portfolio of complementary lines including semiconductor, Passive, LCD and Electromechanical solutions. said Jim Panfil, Vice President of Sales at Fremont Micro Devices USA.

"We are pleased to add a broad line Distributor of electronic components to our network. Com S.I.T. is an important addition to our Distribution sales channel. They meet the ISO9001, ISO14001 and DIN EN ISO 61340-5-1 standards." He added.

### **About Fremont Micro Devices USA Inc.**

Headquartered in Fremont, CA, Fremont Micro Devices USA, Inc. ([www.fremontmicrousa.com](http://www.fremontmicrousa.com)) Fremont Micro Devices is a semiconductor supplier and integrated circuit design house. It has quickly become a leader in non-volatile memory products and high efficiency power management solutions. FMD was founded in Fremont, California in 2003 and its products are offered through a global network of sales representatives and distributors in Europe, North America and Asia. FMD recently announced the cumulative shipment of five (5) Billion Serial EEPROM IC's. The key members of the management team have extensive product development, design, finance and sales experience with leading Silicon Valley semiconductor companies.
