

# Dethatchers

## HUSQVARNA DT22

With a modular design, the Husqvarna dethatchers offer incredible versatility and productivity. The rugged commercial construction provides the power and precision to get the job done right. The base platform can be combined with optional reels and bagger to offer versatility for every application. Standard flail blade reel efficiently removes matted thatch with centrifugal force. Other accessories include delta blades, spring tines, and a 5-bushel bag for simple and efficient clean up. 22" available with a Briggs & Stratton or Honda engine.

 Motor/engine manufacturer **Briggs & Stratton**  
 Working width **22 in**

### FEATURES

Want to take a closer look? Learn more about the product in depth by exploring its design and features.

#### Rugged commercial construction

Reel supported by heavy-duty, greasable bearings with cast iron housings and welded 10-gauge chassis with ball bearing supported wheels.

#### Standard flail blades

These free-swinging flail blades efficiently remove matted thatch with centrifugal force. This design provides excellent thatch removal and reliability proven over nearly four decades in the demanding rental equipment environment.

#### Adjustable, ergonomic handle

Foam padded adjustable handle allows for three different operator heights as well as folding for easy transportation and storage. Handle mounted bail features an automatic safety declutching to stop blades.

#### Simplified height adjust

Control lever adjusts easily to seven preset depths to help maintain consistent depth while power raking.
