

NOTICE OF A PROPOSED CHANGE **TO A RENEWABLE ENERGY PROJECT**

Project Name: Grimsby Energy Inc. Anaerobic Digester

MOECC Reference Number: 8541-9HSGG3

IESO Reference Number: FIT-F5NTWMA

Project Location: 424 Sobie Rd, Grimsby Town, Regional Municipality of Niagara, L3M 4E7

Dated at Grimsby this the 20th of June 2017

Grimsby Energy Inc. (GEI) is planning to engage in a renewable energy project in respect of which the issuance of a renewable energy approval is required. The project is subject to the provisions of the *Environmental Protection Act (Act)* Part V.0.1 and Ontario Regulation 359/09 (Regulation). This notice must be distributed in accordance with section 16.0.1 of the Regulation. This notice is being distributed to make the public aware of a **proposed change to the project**.

Project Description and Proposed Change:

Pursuant to the Act and Regulation, the facility, in respect of which this project was originally proposed to be engaged in, consisted of a Class 3 anaerobic digestion facility with a nameplate capacity of 1,000 kilowatts of electricity (kW_{el}).

A **change is being proposed** to the project. The change consists of the addition of Source Separated Organics (SSO) and Biosolids to the feedstock mix already approved in the REA #8541-9HSGG3. SSO is organic waste that has been separated from other waste under a program operated by or for a municipality, as defined in Ontario Regulation 160/99 made under the *Electricity Act, 1998*. Sewage Biosolids are the residue from a sewage treatment works following treatment of sewage and removal of effluent, as defined in Ontario Regulation 267/03 made under the *Nutrient Management Act*.

If approved with this change, this facility would have a total maximum name plate capacity of 1,000 kW_{el} . The project location, taking the proposed change into account, is described in the map below.

Documents for Public Inspection

A Modification Report has been prepared regarding the proposed change. The Modification Report and the approved REA Reports are available for public inspection at the project website (www.grimsbyenergy.com).
