Installation Sheet

Gravity Recirculation Device

ATS-GRD-100/80/20

STEP 1

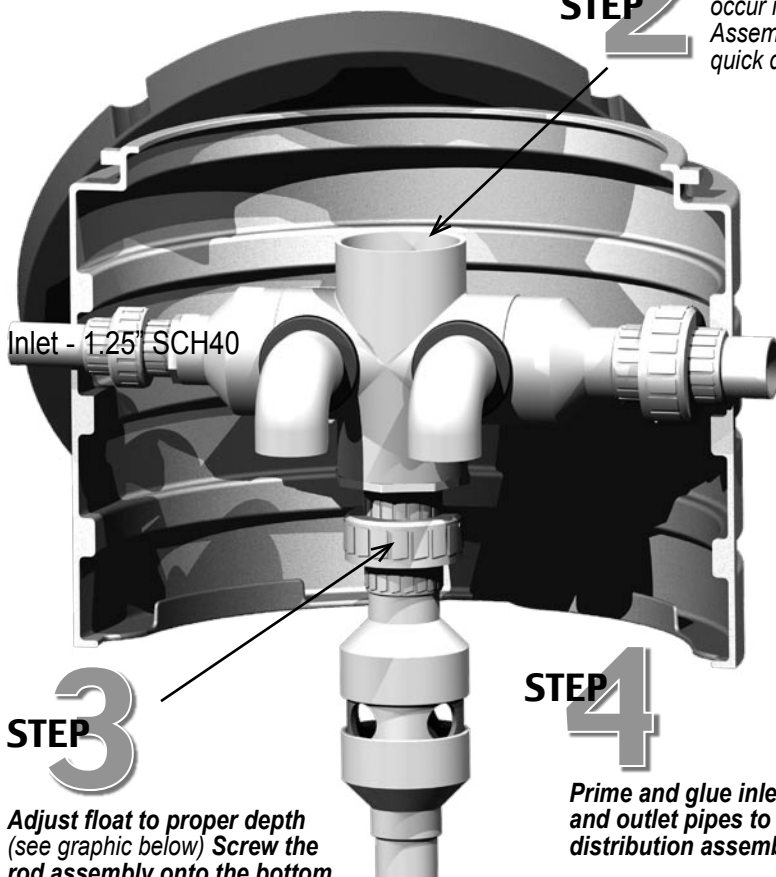

Attach riser to tank.

(May be twist locked onto a riser that's been poured into tank or retrofitted tank with a RB-RTA-26x2 tank adapter.)

STEP 2

Level the assembly

(Even distribution will not occur if assembly isn't level. Assembly will rotate using quick disconnects)

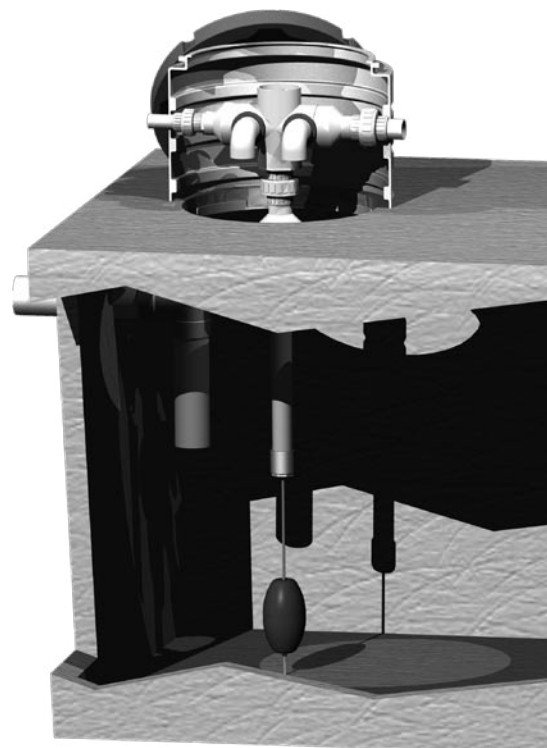

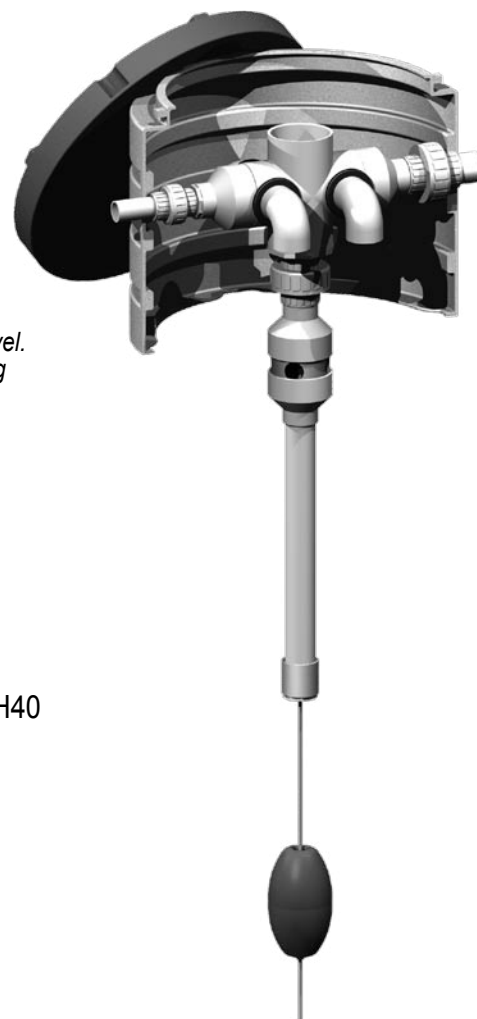

Outlet - 2" SCH40

STEP 3

Adjust float to proper depth (see graphic below) Screw the rod assembly onto the bottom of the assembly, making sure rod stand pipe is vertical for proper float operation.

STEP 4

Prime and glue inlet and outlet pipes to distribution assembly

Proper float height adjustment
