Home Care Maintenance

1. Do not wash eyes, swim, exercise, tan or shower for 48 hours after lash application to ensure adequate time for bonding.

2. Be gentle with your lashes.

3. Do not sleep on your stomach or sides, back is best.

4. Avoid rubbing your eyes and the eye area.

5. Do not use: strip lashes, eyelash curler, mascara.

6. Avoid oil-based products on your eyes, as well as the eye area.

7. Use only water-based facial cleaners.

8. Do not visit saunas or steam rooms frequently, as routine exposure to heat may cause the bond to loosen.

9. It is recommended to get a fill/touch-up every 2-3 weeks.

10. Wash lashes daily (after the 48 hour window)—clean lashes are healthy lashes!

With my signature below, I affirm that I have read and understand my home care maintenance sheet. I acknowledge that if I do not follow the above guidelines, that Nicole Smith (d/b/a “Nicolelashes”) cannot be held liable for any subsequent results.
