

An aerial view of a white inflatable boat with a man and a woman on board. The man is at the stern, wearing a red life vest and sunglasses, looking towards the camera. The woman is at the bow, also wearing a red life vest and sunglasses, looking down. The boat has a small 'TUG' logo on its side. The water is a vibrant blue with some whitecaps.

# SOLID DESIGN

TUG aluminum hull inflatable boats elevate the sport of boating to a state of exhilaration. Lightweight, versatile, and tough, TUG inflatable boats are outfitted with features and details that excite even the most serious sport boater.

Whether you choose the TUG Light Series, the TUG Locker Series with an all-aluminum welded in locker, or the high-capacity Armoura Sportboat Series, a TUG inflatable boat is by far the superior choice.

The smart design of TUG inflatables starts with a high-grade welded aluminum hull lined with non-skid rubber decking.

Super-lightweight welded aluminum design for extra easy handling and securing.

Large tubes and beam for a stable, dry ride and maximum interior space.

Long-lasting Orca® Hypalon backed by a 10-year fabric warranty or durable HEYtex® PVC backed by a 5-year fabric warranty.

Maintenance-free etched and polished aluminum hull never needs painting.

## TUG Locker Series

With welded in bow seat and vented storage locker

Large enough to hold a 3-gallon portable fuel tank.

## TUG Light Series

Sturdy aluminum bench is lightweight and maintenance-free.

Light Series comes equipped with removable bow bag.

Aluminum is lightweight, sturdy, and far less sensitive to bumps and dings than fiberglass, and all TUG aluminum hulls are etched and brushed – a more expensive process than painting, but one that provides an elegant, maintenance-free finish.

Made with super-tough, resilient Orca® Hypalon or durable, economical HEYtex® PVC fabric, TUG inflatables deliver superior performance and resistance to scuffs, UV damage, and chemical degradation.

# EASY FUN

# SMART FEATURES

All Hypalon fitted boats are backed by a 10-year limited fabric warranty, and PVC fitted boats have a 5-year limited fabric warranty.

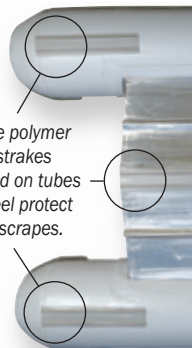

Low-maintenance and earth-friendly, all TUG inflatables are made with 100% recycled aluminum. Unlike fiberglass, which once manufactured cannot be re-purposed and ultimately ends up dumped in a landfill, aluminum is fully recyclable.

Console and cushioned pilot/copilot seat.

Protective cover and extra aluminum bench seat available as options.

Unique polymer rubstrakes mounted on tubes and keel protect from scrapes.

Optional steering and control unit mounted to cushioned storage seat.

Every detail in the design of TUG inflatable boats expresses our commitment to quality and high regard for craftsmanship. Large tubes and beam create a more stable, dry ride and maximum interior space. Combined with the solid aluminum hull, TUG inflatables deliver a ride that is smooth, easy to turn, and just plain fun.

Engine not included.

## TUG Armoura Sportboat Series

With seat and console

Bow storage locker with cushioned bow seat.

Forward seat on console on Armoura 14', 15', and 17'.

Cushioned pilot/copilot seat with large storage compartment.

Land\*Sea\*Happy

Once you've experienced the superior performance, minimal maintenance, and smart design of a TUG aluminum hull inflatable boat, you'll never again settle for the ordinary. After all, if you're not having fun, you're not doing it right. The lightweight, versatile aluminum hull TUG is the serious way to do fun right.

All TUG Inflatable Boats include HEYtex® PVC fabric or Orca® Hypalon fabric, 3-mm etched, brushed, and polished aluminum hull, collapsible oars with fold-down locking system, protective motor transom plate, protective rubstrake along keel and tube undersides, foot pump, two forward towing rings, davit lifting rings, bow eye, aluminum rowing seat with forward & aft attach points, rubber non-skid deck matting, heavy duty rubrail, bow handle & passenger grab handles, extra seat attachments, and maintenance kit. Additional options: extra aluminum seat, protective cover, seat mounted steering & control unit, storage seat & console.

Armoura Sportboat Series has a choice of a pilot/copilot seat or leaning bolster. Console has a forward seat on the 14', 15', and 17' models. Also comes standard with steering, fuel/water separator, bow and stern nav lights, and tach.

Specifications may change without notice. Bixler's Marine recommends the use of a personal flotation device or life jacket when boating.
